LAVATORY pipes may be cleaned of soap and lime by placing a good handful of common salt in the bottom of the basin overnight. The salt will gradually melt, and the first flush of water in the morning will clear the pipe.

FOR MUDDY SHOES.

Vaseline as a preservative for new shoes which have become wet and muddy is excellent. First rub the shoes well with a soft cloth, and then remove all the mud. Saturate a cloth with vaseline, and rub well into the shoes; stuff the shoes into shape, and let them rest for a day; then give them another dressing and rubbing and they will appear as good as new.

Although natural history has thoroughly established the fact that the sounds called the death-watch proceed from a little harmless insect, many people still exist who refuse to be persuaded that the noise is not prophetic of the charnel-house. Even those who have been brought to credit the fact that the ticking is produced by an insect are reluctant all at once to abandon a gloomy notion, and therefore assume that the sound is still significant of doom for the creature that produces it. The spider in the case of dying, and when the ticks cease the creature is dead. The insect is not a spider, but the pediculus of old wood, belonging to the order aptera in the Linnean system. There are two kinds of death-watches. One is very different in appearance from the other. The former only produces a tick quite as strong as the latter, but the latter will beat some times together, more

HOW TO HOLD THE BABY.

It is said by those who have made a study of the subject that children have been deformed and crippled for life by being held in wrong positions when they were little and helpless. The baby's head must never hang down, nor must the weight of the body be allowed to come upon the delicate muscles of the stomach and bowels. Its back is weak, and so is its neck. The head and back must be supported, and the hips should rest firmly in the nurse's hand. It is a simple plan, however, to cradle the baby's own tummy in this matter of position. If it is in an agreeable position it is contented.

THE BREEDING OF BEST SUGAR.

The great sugar-beet industry of the world owes its very existence to a discovery of Vilmorin. The original sugar beet grown in France did not contain enough sugar for commerce. The amount of sugar could be easily determined in the beet, but in making the test the reproductive qualities of the plant were always destroyed. Vilmorin learnt how to extract the pulp without destroying the plant, and by selection and cross-breeding he grew a plant upon which the great industry is now founded.

COOK CASES.

"When I was fifteen and very fond of managings," said a woman of fifty, "a bit of advice was given me by an aged aunt. She said, 'Mabel, dear, the world went on very well before you were born,

patent for the manufacture of casks in cork-wood, says the British Vice-Consul at Bonn. An interior coating isolates the contents from contact with the cork. The Vice-Consul describes a barrel of eleven gauges which weighed 30 lb. fasted at 80 lb. A great deal of the weight was due to the cask of the same capacity. Cork, being a bad conductor of heat and cold, the necessity of adding alcohol for the preservation of wine would be unnecessary, and the liquid would no longer be subject to the fluctuation of temperature. In warm climates these casks might be used for carrying oils, meat, fish, or fruit. A great saving in cost of freighting would also be obtained, considering a cork barrel weighs two-thirds less than a wooden one. The influence of heat cannot warp the staves, consequently the hoops remain in place.

Don't feel that you must be conductor, engineer, and fireman all in one.¹⁰ The wish to manage is inborn in some natures. They cannot be contented to let other people alone in the smaller affairs of the house; they interfere, and adjust, and ordain, often to their own disturbance and to the embarrassment of those who prefer their own way. In parents and teachers the continual effort to manage makes children either poor or wilful; it is much better for the latter to depend more on themselves within certain limits, than to wait for orders. This is one reason why for some children it is better to be at school, away from their home, than to learn from their father and mother the very details of life. Too much management is rather a poor economy, and it defeats its own end.

A LESSON IN CONSIDERATION.

WALKER OF RUSSIA'S REMINING HOUSE

The Russian reigning house, he it is said, greater wealth than that of any other Royal Family in the world. In the Rev. H. N. Hutchinson's "Living Rules of Mankind" it is said that the minimum revenue the Czar derives from the Crown and State domains is estimated at £1,500,000 a year. More than forty members of the Imperial Family, not in the direct line of succession, draw revenues from landed estates set aside for that purpose by the Emperor Paul I. To these estates is given the name of the Imperial appanages; they cover an area 5,000 square miles larger than the United Kingdom, and the total income derived from them is £2,000,000. Before the emancipation of the serfs 800,000 peasants were attached to these vast estates, and were in a sense the property of their owners.

A wise mother may take measures to have her daughter comprehend for one brief hour what it means to stand over the ironing-board on a summer's day. The girl was required to iron one of her own long, elaborately-trimmed white skirts. It was a difficult task to hands unaccustomed to wield the flat-iron. But the mother hardened her heart and she watched the perspiration roll off her daughter's face as the delicate fabric yielded. When she saw the girl writhes with sticky starch and vexatious wrinkles. The task was never repeated. There were servants enough to attend to the laundry work. But this one experience was worth a great deal to the girl. It put her in the place of the "sufferer for little will". It showed her what a fool she had been to involve her mother in such a made her more careful and considerate all her life. It was really a lesson in social relations.

Family, we a further told, is the quantity of jewels its members possess. "The English Ambassador's daughter said, laughing, that when Alexander III. presented the various Grand Duchesses, ladies of the Imperial Family, with most costly jewels on the occasion of his coronation they thought nothing of the gifts, but teased them curiously in a drawer. To ladies so plentifully supplied with pearls and diamonds a fresh necklace or tiara was a thing of small account." But most famous jewels in all Russia are the crowns worn by the Emperor and Empress. The Emperor's crown is encrusted with 2,500 diamonds. The Empress' crown glitters with diamonds, and the two parts of it are joined by a ruby of splendid size, on which stands a pearl cross. The coronet of the Empress is also a mass of diamonds, set in traceries and clusters round a superb sapphire.

A WOMAN'S RESPONSIBILITIES.
When a woman has taken upon herself, of her own free will, the responsibilities of wife, mother, and mistress of a household, she has bound herself to interests which cannot take a second place, and with which no others must be allowed to interfere. For the housemother the domestic relations precede all others, for they are nearest her, and it is for them she is most immediately responsible. The things which are most precious to her are given into her hands to be cared for both in things great and small, and in this dear kingdom of the hearth she must reign wisely and well. George Eliot has said in one of her books: "Some women think walls are put together by bones." The wise woman, knowing that something is bound up in the walls, would hold the same thought, and make it at once a

All true Meems when eating must begin with salt and finish with vinegar. If they begin with salt they will escape the contagion of serenity diseases. If they finish with vinegar their worldly prosperity will continue to increase. The host is in etiquette bound to be the first to start eating and the last to leave off. Tooth-picking is considered an act of grace in the true Moslem, for Gabriel is reported to have brought a tooth-pick from Heaven for the Prophet after every meal. The priests recite certain passages of the Koran before and after lunch and dinner, and also before drinking water at any hour of the day.

EATING BEFORE GOING TO BED.

It is rarely ever necessary to eat before retiring, unless a light meal has been taken at six o'clock and a good day's work performed between that and bedtime. Do not forget that a gnawing or faint feeling in the stomach is not always a sign of hunger. Hunger is felt all over the body. One becomes nervous and restless—not faint and weak, as is often supposed—when the stomach is empty. As a rule, from an overtaxed stomach, and is frequently relieved by sipping a cup of hot milk, something that is easily digested and at the same time nutritious. Never go to bed when feeling faint. A cup of hot water will relieve the feeling. Do not take cold foods at such times, but drink

laving on the top of a stone a number of curious, round, smooth stones. These, says the *Shiwa*, are the eyes of the spirits of the dead, and the Irish and the natives are very superstitious about them. An Irish authority thus defines the effects of a well-delivered curse: "The belief among the ancient Irish was, and still is, that a curse once pronounced must fall in some direction. If it has been deserved by him on whom it is pronounced, it will fall on him; if not, it will fall on the speaker, or on the return upon the person who pronounced it. They compare it to a wedge with which a woodman cleaveth timber. If it has room to go, it will go, and cleave the wood; but if it has not, it will fly out and strike the woodman himself, who is driving it, between the eyes." One mode of averting the curse is for a person to utter a prayer, and the words were told to him have a grave dug, to cause himself to be laid in, and to have three shovelfuls of

ROOT RYING.
People would find less difficulty with ready-made shoes, says an experienced salesman, if they would stand up to fit them on, instead of sitting down. Five persons out of ten, particularly ladies, want comfortable chair while they are fitting a shoe, and it is with the greatest difficulty you can get them to stand for a few minutes, even after the shoe is fitted. Then, when the two men walking about, they wonder why the shoes are not so comfortable as they were at first trial. A woman's foot is considerably smaller when she sits in a chair than when she walks about. Exercise brings a large quantity of blood into the feet, and they swell

time reciting certain rhymes. Cursing-stones are alluded to in the following:

They loosed their curse against the king,
They cursed him in his flesh and bone,
And ever in the mystic ring
They turned the maledictive stones.

These stones were turned from left to right when praying, but from right to left when cursing.

FRENCH MARRIAGES.

Concerning French marriages, a lady writes: There may be an equivalent in French for the English saying, "Marriages are made in Heaven," but one thing is certain, no good French parent ever dreams of acting up in it. French marriages are very carefully prepared, arranged, and carried out on earth.

NICE DISHES.
AMERICAN PIE.—Cut a pound and a-half of lean beef steak into squares of convenient size, stew it tender in water (not quite sufficient to cover the meat) with a tablespoonful of chopped parsley, a teaspoonful of chopped lemon thyme and marjoram, a teaspoonful of sliced onion, half a teaspoonful of pepper and salt to taste. When the meat is tender, thicken the gravy by stirring into it a tablespoonful of cornstarch, mixed to a smooth paste, with a tablespoonful of Worcester sauce. Arrange the meat in a pie dish with alternate layers of thinly sliced sliced ham and sliced hard-boiled eggs, flavoring all with a very little oil. Fill up the dish with gravy, pour with

thought, French parents are convinced that if the thing is to be done properly they must undertake it themselves. Leaving the matter in the inexperienced hands of the young people, they regard as an even greater lapse of duty and violation of common sense than shunting the business on to the shoulders of Heaven.

ANTIPATHIES.

Certain antipathies appear to depend upon a peculiarity of the senses. The horror inspired by the odour of certain flowers may be referred to this cause. Amatus Lusitanus relates the case of a monk who fainted when he beheld a rose, and never quitted his cell when that flower was blooming. Scaliger mentions one of his relations who experienced a similar horror when seeing a lily. In

NEW HASK is good way of using up the remains of a *l'g* of mutton. Take slices from the roasts leg and sprinkle each with minced shallot and parsley. Use a piece of butter about the size of a large walnut in a clean, enameled stew-pan. When the butter is dissolved add the slices of mutton and as till they are lightly browned and hot. Have a good quantity of spinach washed, cut in halves, and with a salamander, place the slices of mutton in the centre. Have ready some nice white sauce, and fried chopped mushrooms to mix and colour to a deep green by means of some spinach juice. Pour over the meat, garnish with rings of fried onion, and send to table at once.

the massive task of the work would not inspire the men. They were men who were not even a little bit of a subject that there were many who dreamed an apple was a peach. Zimmerman tells us of a lady who could not endure the feeling of silk and satin, and shuddered when touching the velvety surface of a peach. Boyle records the case of a man who felt a natural abhorrence to money. Without money he could not live, but the sight of the gold coin repulsed him. He was so distressed that the plaster applied to his face and the ironed hair that resulted compelled his attendants to withdraw it. A young man was known to faint whenever he heard the servant sweeping. Hippocrates mentions one Nicanor who swooned whenever he heard a flute; our Shakespeare has alluded to the effect of music on the feelings of Julia, daughter of Frederick, King of Naples, could not be so easily cured of her fits as Nicanor's. Boyle hinted when he heard the splashing of water. Scalliger turned pale at the sight of

When smelling hab; the Duke d'Exermon swooned on beholding a leveret, although a hare did not produce the same effect. Tycho Brahe fainted at the sight of a fox, Henry III. of France at that of a cat, and Marshal d'Albert at a pig. The horror that whole families entertain of cheese is generally known. Many individuals cannot digest or even retain certain substances, such as rice, wine, various fruits, and vegetables.

 HUNSLY BOARD OF GUARDIANS.

A fortnightly meeting of the above Board was held on Wednesday afternoon, at the offices, Hunslet, Mr. J. Robb (chairman), presiding. The clerk, Mr. J. P. Kitchen, reported that Mr. J. Butterick (vice-chairman), Mr. Dickenson, Messrs. Hargreaves, Green, Banks, Greenwood, Fryer, Houghton, Edwards, Harlow, Nield, the clerk, Mr. May and assistant clerk (Mr. Ward).

At a meeting of the above Committee, the prosecution of Mr. J. P. Kitchen, of Scarborough, was reported upon, the Clerk stating that the defendant had been fined £3 for his irregularity with regard to the apprenticeship with him of a young man, who previously lived in the house.

A letter was placed before the Committee from the Rothwell District Council, which stated that the cause of the insufficient supply of water to the houses lay in the Guardians' own service pipes, which were at fault. The Superintendent reported a good supply of water on the ground floor, but that when there were three or four inches of water in the Council's tower it failed to rise to the second floor of the houses.

It was ordered that the plumber inspect the pipes and report any defects. It was stated that a small fire had occurred in the Superintendent's house on the morning of Boxing Day, and that a claim of £64 had been made on the Insurance Co.

A report was made on the children's attendance at the Rothwell National School, and on the progress made during the past year. It was decided that the Committee be asked to make a note of scholars going late, and that the Superintendent report at next meeting on backward scholars.

Amongst a number of gifts to the children in the house were from the Children's Board, and of note from Mr. A. Drew, of Rothwell.

Mr. Edwards, in proposing the confirmation of the minutes, first brought the Committee had taken the right action in regard to the security of water in view of the recent fire. Had the fire reached the second floor it was a question if it was not for the water supply, but by the present supply and a very serious conflagration might have resulted had not the outbreak been detected in time.

Mr. Butterick seconded the motion, which was approved.

SUBSCRIPTIONS TO HOSPITALS, &c.
 At a meeting of the Finance Committee, accounts were passed for payments amounting to £284 11s 8d.

The Committee recommended that all the subscriptions to hospitals, &c. be continued, including one of £40 to the Hunslet Working Men's Association, which the Committee had increased from £70 to £100.

Mr. Butterick, in regard to this increase, asked what benefit the union had derived, and what accommodation they had a claim to. He was of opinion that last year the subscription was increased from £40 to £70.

The Clerk said the Guardians had always subscribed £70 the cost of one line of which they had had a right to. If the subscription was going to be increased, he thought it should be made into £140 so that they might claim two beds.

Mr. Green said the mover of the resolution did not give any particular reason why the subscription should be increased, except that the Association was in want of more funds.

The Chairman gave notice to propose an increase in the subscription at next meeting, when he thought sufficient grounds would be given for increasing the figure so as to cover the cost of two beds.

Mr. Fryer, the representative to the Association, not being able to attend the meeting, the Chairman of the Board was elected representative on the motion of Messrs. Butterick and Wood.

Mrs. Cooke's Gift to the Poor.
 A resolution of thanks to Mrs. A. Cooke for her Christmas gift of 10s. to the adult, female of the House, and of 6d each to the children at the House was passed on the motion of the Chairman, seconded by Mr. Edwards, and supported by Mr. Hargreaves.

WORKMEN'S VESTING COMMITTEE.
 At a meeting of the above Committee, Messrs. Houghton & Seddon reported on their visit to the Workmen's Vesting Committee, and that they found everything satisfactory, and that the inmates had expressed their gratification for what had been done for them at Christmas.

Mr. J. P. Kitchen, who reported on his inspection of the samples of cloth for old and young men's suits. It was proposed by Mr. Robb that the matter be left in the hands of the Chairman, Mr. Lawson, and that he should obtain a sample of cloth for old and young men's suits. Seconded by Mr. Harlow and carried unanimously.

The Oulton Minstrels.
 A WITTY AND JOVIAL TROUPE.

With such gentleness as form the Oulton Cricket Club secretary, Mr. J. P. Kitchen, in other ways help to promote the interests of the village, there is little probability of the popular summer pastime suffering for want of the "club" boys, for however the members of the club are increased or money expended in bettering the conditions under which the game is played on the picturesque situated enclosure, there are always ready and capable hands to undertake the task of the accounts. After what the past season has proved itself to be in the way of record raising for the Saturday cricket with its consequent effect on the game industry, and the extra items of expenditure, the club last finished up with a deficit of about £3 10s. To the help of the needy came Mr. Butterick, who, as secretary, and number of other players of the game, who as prime organizers of the Oulton Minstrel Troupe, have won for themselves widespread fame, and before-time helped to the "club" boys, and have been well deserving their funds. ROTHWELL UNITED TEMPERANCE CRUSADE.

WEAK PLACES IN THE TEMPERANCE ARMOUR.

SIR WILFRED LAWSON AND "THE TRADE."

Whether it was that the Temperance Crusade recently started in Rothwell is arousing more enthusiasm and interest in the temperance question, or that the lecturer was a lady, announced to speak on a subject of particular importance to workers in the cause, the congregation which assembled in the Rothwell Primitive Chapel on Monday night was the largest we have seen since the meeting was inaugurated, and that in spite of very inclement weather.

Miss Wiseman, of Bradford, was the speaker.

At seven-thirty, the Rev. E. Aston opened the meeting with singing and prayer, offering thanks to Almighty God for the new licensing system recently passed, and praying for its faithful administration in both town and country.

There were present, he afterwards remarked, about the biggest attendance he had seen at a Crusade meeting, but he was sorry to say that yet Miss Wiseman had failed to arrive.

He had, he said, been very much interested lately in reading about the working of the new Act which had caused great excitement in many places.

Many of those interested in the trade said that whatever the Government had blundered in before, they had certainly blundered in passing such a Bill. He had long contended that the temperance cause was a firm grip and a great over-sight of the drinking facilities of the people. The present Act was already making the life of some of them had to be tedious for life, or it might however, mean their salvation.

Mr. Aston, who presided over the gathering, spoke briefly on the new legislation and expressed her deep interest in the temperance movement.

After a number of children in charge of Mr. Throp and Messrs. C. W. H. Hainesworth had sung very nicely the familiar hymn "Lead kindly Light," a very pleasing time, Miss Wiseman arrived, over half an hour late, her explanation being that there had been some mistake in the letter respecting her appointment.

After making her apologies she at once commenced her lecture on "Weak places in the temperance armour." The first of these most vulnerable points she alluded to was the thoughtlessness of temperance people towards others, and especially those stained by the sin which followed drunken habits. In work in the slums of Edinburgh, Glasgow, Bradford, and other cities she had seen something of the misery and depravity which followed and clung to the slaves of drink, and she wondered sometimes when she witnessed these sights how many of the temperance workers could be so apathetic and easy-going. Dr. Less, some years ago, made a statement in one of his city sermons, that 50,000 people died annually from the effects of drink. This statement Dr. Norman Crow questioned, and himself investigated the calculation, with the result that he found out 60,000 but 120,000 was nearer the actual figure. From phosphy, he was the makers' disease, four persons died during a recent twelve months, and the House of Commons at three days and three nights discussed the danger and going of opium, and yet the fact that 120,000 was slain annually by drink was taken far more complacently and apparently as a matter of course. The love of gain was another weak place, and was proving, as pointed out by the lecturer, in reference to ministers of religion having shares in brewery companies. The Vicar of Wakefield said one of these: "Sir Wilfred Lawson also had nearly six thousand pounds which he held in trust invested in a similar way. Even as a trustee he held he should keep his hands clean in this matter. Want of unity was another point which had been proving, as pointed out by the lecturer, in reference to ministers of religion having shares in brewery companies. MR. TURNBULL AND THE SCHOOLS

To the Editors of the *Rehoboth Times*,
 Allowance should always be made for post-
 dated speeches, and the jury composed
 assembled at the Queen's Hotel, Stourton,
 may be excused for saying and hearing things
 of a complimentary character, but when re-
 ported in the *Rehoboth Times*, they are re-
 specting an absent person (especially if the
 remarks are based rather on errors than facts)
 it is due to that person, that a correct state-
 ment of the facts should be published. At the
 meeting at Stourton, as given in the *Rehoboth
 Times* make comparison between the Stourton
 and Bothwell schools, to the detriment of
 the latter. It is not fair to say that the
 fairness this injury (inadvertent possibly),
 should be corrected, and as Clark to the
 School Board, and equally interested and jeal-
 ous of the reputation of the school, should
 to state certain facts, leaving the public to
 judge. So far as the Board is concerned, we
 are thoroughly satisfied with both reports, and

Each department on the excellent reports. These reports were both published in the newspapers dated January 30th. First, the *Winnipeg Free Press* published the report of the same (22e), with 4s, a bread for cookery; there are a larger number of children in the school, hence the necessity for difference in amount of money. Second, we beg to supply copy of reports for this year for each of last year for both "schools".

Bothwell Hall (902) "The School is well maintained. Generally speaking, the attendance is good. The children are very obedient and answer in some cases being below the rest of the work. The instruction in Needlework is good. The school is in good order. The Master is supported by a zealous staff of teachers. The Organisation is open to improvement. The position and Drawing is satisfactory. Special mention."

Bothwell Hall (902) "The Head Master continues to improve his school. The school is well equipped with all the necessary teaching material. The teaching generally is satisfactory, and the

interest of the children is good."
(1903) "The efficiency of the school is well maintained."
I am quite in accord with Mr. Turnbull, that healthy emulation is beneficial, and he will agree with me that the School Board have endeavored in every way to further the best interests of the children throughout the district.

Respectfully yours,
A. MARSHALL.

Professor Huddarh, of Morecambe, lectured on the above subject on Wednesday night, in the Bournemouth Town Hall, under the patronage of the Bournemouth W. Denton presiding. Mr. Huddarh gave some very interesting descriptions of how a in the political world, in science, art, and literature, and as prominent missions and in the East Indies, and other descriptions had attained notoriety, and left behind them names familiar the empire o'er. The lecturer is a well-known phenologist, and which gave some interesting descriptions of the various types of the Malay race, and of characters as noted by him in some of the distinguished characters of whom he spoke. The close of what was a very profitable and interesting lecture a vote of thanks was passed by Mr. Huddarh and the Chairman, and certain resolutions were passed, and the evening closed. The Chairman, Mr. W. Denton, presiding. A collection was taken on behalf of the new school fund.

There was a very good attendance on Monday evening last, in the Board School, when a lecture was given by Mr. I. Smith, M.E., entitled "On a Coachguard in 1803." Mr. Smith described the different appliances used in the

He described the difficulties experienced in the old coaching days, and drew a contrast between the old, present, and future methods of travelling. Leeds, he said, had played an important part in the times of coaching; there were still remaining many inns in Leeds where coaches put up in days gone by. Coaches had a very hard death in their attempts to

strate the railways. The first coach to run was made for the Earl of Lennox in 1580, and in 1845, coaches discontinued for ever. After telling several anecdotes in connection with the famous Dover Mail exploit with highway-

he concluded an excellent lecture by reading passages from Dickens' Works. Mr. Day and Mr. Pemberton spoke at great length on the subject, and complimented Mr. Day on the way he had delivered his lecture. The Chairman had again to condemn the con-

of a certain section of the members and informed them that unless it was discontinued they would be expelled from membership. The usual vote of thanks to the lecturer was proposed by Mr. Collins and very ably seconded.

HINTS FOR THE HOME.

Essence of cinnamon destroys microbes as effectively as carbolic sublimate.

Slice bananas for dessert are improved by pouring over them the juice from oranges, or pears.

Marrow will be much more smoothly if served 15 to 20 minutes when tacked down, as is frequently done.

Southern potatoes may be cleaned by being dipped in cold water, and dried by laying them face down on a very soft cloth, and pressing the backs with the palm of the hand. The white mounts will be rubbed with state breadcrumbs.

THE HEALTH RULES.

1. Don't leave your room in the morning with an empty stomach.

2. Never expose yourself to cold air immediately after you have partaken of a warm liquid of any kind.

3. Don't leave your warm abode in cold weather without warm wraps around your shoulders and back.

4. Breathe inspiration in the cold by breathing through the nose. This will give the air a chance to warm before reaching the lungs.

5. Never place your back near a heated oven, or a hot water radiator.

6. Don't stand before an open window or take a draught of air on your neck.

7. Don't remain indoors in very cold weather, and stand in an open space on ice or snow.

8. Talk only when you must, for the cold air is "speech is silver, silence is gold," holds good in cold weather.

9. Don't put off your regular bath. When the skin is not kept fresh and soft, it draws the poisons together, and you are rendered susceptible to many of the diseases of cold weather.

10. Don't retire with cold feet. Nothing prevents sleep with so much certainty as the warmth of your feet.

11. Don't let your feet get cold.

SEWERBY BRIDGE v. ROTHWELL WHITE ROSE.

At Sewerby Bridge. Early on Wray came for a severe scoring for Sewerby, the ball just going outside the net. Hopkinson was also prominent for some capital dribbling, which caused Rothwell again to defend. They eventually cleared to neutral territory, and even play followed. Nothing was scored up to the interval. After half-time, Sewerby kept up an almost constant attack, and eventually W. Thompson shot in clearly, and the visitors were down by 1-0. The visitors were handicapped by the absence of Baker, the captain, nearly all the game, and as the ground was also marked out for a Rugby match, the lines were very misleading.

BOTHWELL TEMPERANCE SOCIETY
ANNUAL MEETING

The twenty-first annual meeting of the above Society was held in the reading room at the Temperance Hall, on Wednesday evening last. Mr. Charles Ineson, the president, presided over the meeting, being supported by about 30 members.

having been confirmed. Mr. Wright Stead, the general Secretary, submitted the following report:— Again your Committee have much pleasure in presenting their annual report, setting forth the work attempted and that accomplished during the year. Our membership we are pleased to say continues to make

memory increase, we have admitted during the year 21 new members, against this we have lost and one died, leaving an increase of 12, making the total membership 92. For some years past we have had no female lady members, but we are pleased to report that 12 have already enrolled themselves, and we here take the opportunity of appealing to our

members to use their influence and energy in helping to again build up this most useful section of our Society. Our Pictorial Services still continue to have a great public interest centred in them, and although we cannot report the same financial success accruing therefrom, which is due to the fact

that 18 out of the 26 services have been held in the Temperance Hall, which is not sufficiently commodious to hold large audiences. We regret to report the failure of our Entertainment Committee in their attempt to establish a Saturday Concert. We firmly believe some active social work is necessary to offer an inducement to young people to spend their

week-ends, through the winter months away from inducements offered by the Public Houses and the Clubs, where Intoxicating Drinks are sold. Our Bazaar has again been attended with success, resulting in a profit of £31 18s 2½d and we here take the opportunity of thanking all who took part in it. In con-

clusion we may mention that the spirit of Temperance Reform is active throughout the country, and we appeal to all our members to support active legislation tending to remove the drink evil from our midst."

The balance sheet shows a balance in hand, 1892, of £9 16 1½; income from billiards, £159-8-2; from other sources, £110-0-0; total, £369-4-2½.

£175 0s 0d; members' contributions, £10 0s 0d; Sunday Pictorial Services, £37 18s 11d; profit on annual bazaar, £31 18s 2½d. and other small items, with £8 15s withdrawn from bank, making a total income of £130 6s 7d. The expenditure amounted to £122 7s 8½d leaving a balance in hand of £7 18s 11½d. It was reported that £29 16s 8½d was the total

Income of the Popular Concerts, whilst the expenditure had amounted to £47 10s 3d, leaving a deficiency of £17 13s 5½d.

The report and balance sheet was adopted on the motion of Mr. Wm. Lunn, Senr. and Mr. J. M. Smith.

On the motion of Mr. J. M. Smith, a vote of

The Chairman proposed and Mr. Joshua Lunn seconded, a vote of thanks to the officers of the Society, and to the ladies who had worked during the past year; which was unanimously agreed.

A BOWELL RAILWAY MYSTERY.

ACCIDENT OR SUICIDE?

The circumstances connected with the mysterious death of Tudor E. Vaughan (27), whose body was found on Wednesday morning on the line at Rothwell Haigh, near Leeds, were

Formerly Mr. Vaughan was a stockbroker in Shanghai, and later in Bristol, but at the outbreak of the Boer War he joined the colours, and served with Kitchener's Horse. Five weeks ago he was appointed district inspector of the

New York Life Insurance Company in Leeds, and had since resided with his brother-in-law, Mr. Robert Arthur Bruce, at 190, Chapeltown-road, Leeds. He was a native of Haverford West, Pembrokehire, and was married, and had one child. His employers had expressed every satisfaction with his work, and the only thing that was known to have troubled him was

that he had not sufficient money to live with his wife. When he left his brother-in-law's house on Tuesday morning he appeared to be in good health, and later in the day a telegram was received saying that he would not return until the following day. It was not known where he was going, and Mr. Bruce had since

ascertained that he had not been at the office since the previous Monday.

James Palethorpe, signman at Rothwell Haigh said he found the body early on Wednesday morning, lying in the six-foot-deceased's head was badly injured, and his left foot was nearly severed. He was fully

William Henry Burkitt, assistant station-master at Normanton, said he found a hat and stick in an empty carriage of the Bristol corridor train. The door was closed, but the window was open.

The jury must consider whether deceased had met his death as the result of an accident or whether he had committed suicide. In either case there was little evidence to guide them.

The jury returned an open verdict, and expressed deep sympathy with the relatives of

deceased.

STOURTON BOOKMAKER FIXED.

A LESSON TO WORKING MEN.

WHAT A BOOKMAKER TAKES AND WHAT HE PAYS OUT.

At the Leeds West Riding Court, on Tuesday before Mr. W. H. Maude, Mr. T. Walker, Mr. B. Naylor, Mr. A. Humber, Mr. C. Holdiday, Mr. H. G. Milford, and Mr. R. Bigg, John Dyson, described as a bookmaker, of Stourton appeared to answer four summonses for having kept a shop for betting purposes.

Sergeant Charles Wain stated that on June 11, from 11.40 a.m. to 2.0 p.m., during which time 33 persons entered the place, the majority being betting men. On June 11, from 11.40 a.m. to 1.45 p.m. 48 persons entered, most of them being those who had been seen on previous days. On June 12, a Saturday, from 11.40 a.m. to 1.30 p.m. 54 persons entered, the majority again being betting men. On that occasion, he noticed slips of paper placed into the defendant's hand, and also money. On June 17, was the day on which the witness observed the defendant's shop. Each day a boy rode up on a bicycle with sporting papers, and on two occasions visits were paid by telegraph messenger boys. On the Royal Hunt Cup day, at 2.5 p.m., the witness and another officer went to the shop with a search warrant. After reading the warrant and seeing the book, he would hand over his book he would be looked up. He replied "Well, I'm very sorry, but I must get a living somehow." The defendant then handed over his book and it was found to contain 3,769 bets over a period of eight weeks from April 22 to June 17. The figures showed that the amount received in bets was £29 4 10, and that £2 11s 2d had been paid out. (Sensation.) The book contained, further, a number of slips bearing the names of horses corresponding to those mentioned in the book for those particular days. On the day following the raid the witness was on leave, but he watched the shop privately from 11.0 a.m. to 1.30 p.m., and saw five persons enter. Two of them were eating lunch. The witness was very conspicuous by their absence on that occasion, (laughter.)

The defendant admitted the betting, but insisted that the shop was in the possession of the West Riding police. He was told by the Chairman that it was.

A fine of £10 and costs in each of the four cases for three months was imposed.

MINERS DEMONSTRATION AT CASTLEFORD.

Glorious fine weather favoured the annual demonstration of the Yorkshire Miners' Association, on Monday last. The Rothwell branch, or should we say a dozen or so representing the branch, left for the demonstration at 10.15 a.m. and arrived at the Rothwell Old Band and their line banner. There were 93 branches of the association represented, and as almost each of these had banners—some of them of magnificent design—the procession to the football field in Look-lane was a fine sight. The effect was heightened by the presence of over sixty brass bands, which played lively airs on the way to the field. The ranks were lined with spectators, and the behaviour of the crowd throughout the day was of the best.

When the procession, which was over a mile long, arrived at the field, the crowd divided itself around three platforms, from each of which several addresses were delivered, the speakers including Mr. B. Richard, M. P., Mr. Albert Jones, M. C., Mr. Joseph Wilson, M. P., Mr. W. R. Bennett, M. P., Sir John Austin, M. P., and Sir W. H. Holland, M. P. The same resolutions were put at each platform, and were all carried unanimously. Mr. Chamberlain's chief proposal came in for general condemnation, and the empty boast of the Colonial Secretary that it was only the Labour leaders and not the working men who were against Free Trade was warmly rebuffed. Every declaration in favour of Free Trade was received with unanimous cheering, and from the evidence of the demonstration it is clear that the miners will stand no tampering with our fiscal policy.

The Eight Hours day, the compensation question, the Denaby dispute and other questions affecting the miners' interests were spoken of at length.

THE RACING PIGEON.

On Thursday, the clubs in the Yorkshire Federation sent over 1,600 birds to Ventnor, Isle of Wight, for liberation on Saturday, the largest number being entered by the Sheffield Society. Owing to the disaster from Winchester last week the weather was very fine in number. The weather on the island on Saturday morning was very bad, as there was rain and a north-east wind. The birds were liberated on Monday morning at 7 a.m. The Continental race in this Federation will be flown. The young birds race will commence at Ambergris on July 25th.

Rothwell Homing Society (230 miles)—Fourteen members sent 37 birds—P. Goulthorpe, 1,129; 1,057; Fox Bros., 1,086; J. Adams, 1,067; John Brown, 1,050; 996; James Arncliffe, 1,037; 1,000; John Brown, 1,095; G. Field, 994; R. W. Hargreaves, 915; A. Chapman, 629. Total for Old Bird Cup, 6,378; Fox Bros., 6,332; James Arncliffe, 6,314; G. Field, 6,290; John Brown, 6,029; A. Chapman, 5,986; A. W. Hargreaves, 5,976; P. Goulthorpe was the Old Bird Cup.

MRS. MEYNELL INGRAM.

Mrs. Meynell Ingram has arrived in Eton Square from Wiesbaden, where she has been staying for several weeks at the Rose Hotel. On leaving town (says the "World") Mrs. Meynell Ingram will go to Hoe Crag, her place in Staffordshire, for some time before returning to Templeham, the family seat near Leeds.

THE REV. JOHN HARRIS.

The Rev. John Harris who succeeded the late Rev. S. Arnold as superintendent of the Rothwell Wesleyan Circuit last September, has already fixed on the 10th of October as the date after completing the usual term in his present circuit, having this week accepted an invitation from the Dudley Circuit for 1906. This decision is a great relief to the members of the circuit, who have been waiting for some time for the Rev. Mr. Harris to leave the circuit, as he has been so long in the town itself, and there are within easily traced traces.

SUGGESTED RULES OF THE ROTHWELL & DISTRICT ASSOCIATION FOOTBALL CHAMPIONSHIP.

1.—This Cup shall be called The Rothwell and District Association Football Championship Cup to be held annually, and thereby help to provide funds for the Rothwell Committee of the Leeds General Infirmary and encourage Association Football.

2.—The Competition shall be open to all clubs who are members of the Leeds and District Association.

3.—The Cup Executive shall consist of President, Treasurer, Secretary, and two members elected by the Rothwell Committee of the Leeds General Infirmary and one representative from each club entering the competition.

4.—A Committee of six members of this Executive shall be appointed at the first Executive Meeting who shall decide all disputes, protests and interpretation of rules.

5.—Each club desiring to compete shall give notice of such desire to the Secretary of this competition on or before the first day of October previous to that season in which it desires to compete, and shall, with such notice, forward an amount of two guineas to the Secretary. The Executive may reject the entry of any club if they deem such a course desirable.

6.—In the semi-final and final ties the Executive shall take sole management, and the whole of the net proceeds shall be given to the Leeds General Infirmary and the Leeds District Association.

7.—The Challenge Cup shall always remain the property of the Rothwell Committee of the Leeds General Infirmary to whom it may be loaned by the winning club from year to year. Suitable medals will be presented to the finalists by the Executive.

8.—The Executive shall have power to disqualify any competing club, player or players for any offence of the club which they play and have power to suspend any player or players from the competition, or of the rules of this Competition, or of the F.A.

9.—The Executive

WORKPEOPLE'S TRIP TO BARROW.

The workpeople employed on Messrs J. & J. Charlesworth's Rothwell Haigh colliery this year selected Barrow as the place to be visited on their annual trip. It is the 26th time the Rothwell Haigh men have visited this ship-building centre before, so that there have been plenty of time for the town and attractions to become familiar. Two trains were chartered to convey them on their long journey and they left Woodlesford Station on Saturday morning at five o'clock on Saturday morning last. The journey was a long one, but the variety and beauty of the landscape (including moorland scenes, the rock-bound coast lines the towering headland of the fens, and the various industries and peaceful rural scenes, through which the train rolled served to entertain with alternating attention to various baskets, bottles, and parcels of provisions with which most people appeared to be supplied. The train ran comfortably and quickly, Barrow being reached about half past eight o'clock. The docks, various branches of ship-fitting, engineering, and the water side with its hundreds of boats and masts, all filled up a pleasant day, the weather being fine and favourable throughout. The return railway journey which was begun in the early evening was completed about half past ten at Woodlesford Station, many being already home at Rothwell by eleven o'clock.

ROTHWELL AND WOODLESFORD INFIRMARY SUNDAY.

This annual effort in behalf of the Leeds General Infirmary took place on Sunday last, in fine weather, similar to that which was favouring a cricket match and gala on Oulton Green the previous day. On Sunday, a procession was formed at the top of Woodlesford, which, headed by the Oulton Band, paraded the streets of the two villages, finally arriving at Oulton Church, where a musical recital was given. There were large crowds along the route of the procession and collections were made in boxes for the infirmity funds. At the church, prayers were intoned by the Rev. R. Garrad, and a short sermon preached by the Rev. Armstrong, of Methley. The sermon was based on a part of the 29th verse of the 2nd chapter of St. Paul's epistle to the Galatians, "The Son of God, who loved me, and gave himself for me." In the course of the sermon, the preacher alluded to the cruelty and indifference of the people towards the sick and feeble prior to the birth of Christ, and characterised God's gift of his only begotten Son as a charm of love, which induced people to be more tender, merciful, and kind to one another. They should ask God to give them strength to act as he would have them act—to do their best to relieve the suffering, to be kind to the poor, and to be merciful to the weak. There were large congregations in the Church where collections were made for the infirmity funds. In the evening, social services were conducted in the district, the preachers being:—Oulton Church, Rev. R. Garrad; Woodlesford Church, Rev. A. J. E. Irvine; Oulton Methodist Free Church, Mr. W. Hooper; Leeds; Oulton Wesleyan Chapel, Mr. Garrad; of Stanley; Woodlesford Wesleyan Church, Mr. W. Cartwright.

Mr. T. Lister has again carried out his duties of secretary in a praiseworthy manner, whilst Mr. A. Abbey has ably aided in the capacity of treasurer.

LOCAL SCHOLASTIC SUCCESSSES.

We are pleased to note the names of John Williams Morton and John Cleaver, of the Woodlesford Board School, and Elsie Boothroyd, of Wm. W. Whitworth's, of Oulton, in the list of successful candidates for the County Minor Entrance Scholarships recently offered by the West Riding County Council, and that a coal mining exhibition has been awarded to Oulton Butler, of Woodlesford.

SPLENDID PERFORMANCE OF A LOFT-HOUSE RACING PIGEON.

Our readers will be pleased to hear that Mr. G. F. Balme, of Lofthouse, timed his racing pigeon in La Roche (France) in the recent race, 600 miles, flying on Tuesday morning, he coaxed Wednesday morning between 8 and 9 o'clock. He was sent to compete in the National Race from La Roche. Up to Thursday morning no bird had entered at La Roche, and he therefore was Mr. Stanhope's special, of £3 for the first National Race bird timed in the West Riding. The weather was very trying, there being a strong north wind; the bird's performance is considered most meritorious.

CORRESPONDENCE.

[We do not at all times associate ourselves with or hold ourselves responsible for the expressed opinions of our correspondents. Eds.]

A POINT FOR THE CONSIDERATION OF ROTHWELL RATEPAYERS.

To the Editors of the Rothwell Times.

Dear Sirs,
With great reluctance I take the pen on the following subject, still it is a matter which most concerns the people of Rothwell, and I have thought it my duty to ventilate the same. It would appear that the paiking and decorating work of the Oulton and Rothwell Haigh Board Schools has been let out for tender, and a certain gentleman in Rothwell has got the contract, so far so good; but what about the lost six-pence pounds; and when will the people of Rothwell wake up to their own dear interest; nineteen pounds may not seem much, but how many nineteen pounds have been lost in the same way and how many more will follow, if we sit still, and allow such things to go by unquestioned. It is time the dogs of justice were let slip on the trail, and so as to make this question further: If the tender was too low for the Board School early it was too low for the Children's Home. There was such a discrepancy between the two tenders that Barker's friends in fact of so palpable a fact dare not let him have it. In the Board School, Barker is £28 and Roby £69, they are £16 lower on a £92 contract than Barker, and Barker's friends are looking at the figures and facing the facts that cannot be disputed. The Children's Home in spite of the low contract has been done better than anything they were built. A non-residential place was put forward by one gentleman to the effect that he loved to favour Rothwell, but who is to favour and love other painters when Barker's friends have him and take the contract over other people's heads. If he has any constitutional right in invading the districts of other workmen surely on the same grounds they have a right to take the contract in the district in which he lives. Rothwell like other townships has a life by competition, and that being so he has a perfect right to make the best bargain as he can without prejudice. But surely such could there be in advertising in the Leeds papers for tenders if the work was predicated to be general. Why spend the ratepayers' money thus, and a mockery of them and the public in general.

Yours respectfully,
A RATEPAYER.

LONDON'S BEST.

The British Weekly, June 20th, 1903, says: "All the same journalists, the general public, and Free Churchmen, there is much said on the growing interest and excellence of 'The Daily News'." We are very glad to know that the result has been a largely increased circulation all over London and in the provinces. 'The Daily News' deserved support, and it is only fair to make recognition in the abandonment of betting news. But after all, no paper will succeed for negative merits, and 'The Daily News' can stand solely on its quality as a good newspaper.

We hope that Free Churchmen everywhere will give it their heartiest support. They may begin this support for the sake of the paper, but we promise they will continue it for the rest of their lives.

BOTHWELL INFIRMARY COMMITTEE.

At the weekly meeting of the above, held at the Council Offices, on Monday, and over which Mr. R. Watkins presided, Mr. J. Stead was elected Mr. Fred Hargreaves' colleague as secretary.

ROTHWELL BRANCH OF THE LEEDS

CO-OPERATIVE SOCIETY.

ANNUAL TEA AND CONCERT.

Saturday last was the great day of the year

in the annals of the public doings of local

co-operation, for on that date the annual tea

and concert took place, a highly successful and

fully maintained its attractiveness and offers

exceptional facilities for social intercourse and

the prosecution of that propagandist work for

which these taking part in the meeting are so

well fitted.

Tea was served in the Mechanics' Hall,

about two hundred persons sitting down to the

tables which were presided over by Mrs J.

Wade, Mrs A. Thurlwell, Mrs Beckwith, Mr.

Brown, Mrs T. Fowler, Mrs Halsworth, Mr.

G. Foster, Mrs Heslop, Mrs Nunn, Mrs Pearce,

Mr. Gladstone, Mr. Editor.

The large hall was well filled in the evening,

when the tea and concert took place, Or. James

Tedley, president, occupying the chair.

In his brief opening address, the Chairman

remarked on the encouraging features which

marked their annual re-union, and trusted that

it might continue to grow in attractiveness and

general approval.

Mr. J. Lloyd (director), said the progress of

the Leeds society during the past ten years was

probably without parallel in the history of the

movement. Progress had been so rapid and so

great that it was not a matter of what, but

when. In 1892 they had, in round numbers,

thirty thousand members; at the end of last

year the number of members was no less than

157,000. Such figures, an increase in ten years

of twenty thousand, or at the rate of two thousand

per year. In 1892 their turnover was £260,000

for the year ending 1902 it was £1,416,037.

It was not only a matter of what, but when.

A NATIONAL BAND FESTIVAL.

Never in the musical history of this country

has so great a musical competition been

arranged as that provided by the Crystal Palace

Band, under the leadership of Mr. W. J. W.

for next Saturday, September 26th, and in

which the Crystal Palace Band has this year

"Queen Alexandra, the Prince and Princess of Wales, and the other members of the Royal Family." Proposed by the Chairman. The Huntslet Board of Guardians. Proposed by The Right Hon. The Lord Mayor of Leeds. Responded to by Mr. Butcher. The Chairman moved by Mr. Harcourt. Responded to by Mr. Farrer. The Leeds and West Riding County Councils, and Local District Councils. Proposed by Mr. Peter Wilson, J.P. Responded to by Councillors Wilson and Walter Harcourt. The Local Government Board. Proposed by Mr. D. Hawyard. Responded to by Mr. Bagnall. The Visitors. Proposed by Mr. E. Green. Responded to by Mr. A. Willey and Councillor Picketon. The Architects, Engineers, and Contractors. Proposed by Mr. H. B. Knight. Responded to by Mr. J. H. Morton. Besides selections by Mr. Dyson's Band, Mrs. E. King, soprano; Miss L. Binn, contralto; Mr. Wilfred Hudson, tenor; and Mr. J. Pearson, baritone, sang a number of songs, duets, &c., which were greatly appreciated. The proceedings closed shortly after ten o'clock.

HUNSLT BOARD OF GUARDIANS.

PROPOSED APPOINTMENT OF A CHAPLAIN.

STRONG OPPOSITION.

A monthly meeting of the above Board was held on Wednesday afternoon, at the Office, Huntslet, Mr. J. Butcher (vice-chairman) presiding. Others in attendance were—Mr. Dickenson, Rev. Mr. J. D. Dillon, Rev. A. J. E. Irvin, Dr. Hawyard, Mr. Hargreaves, Mr. Crosthwaite, Wood, Edwards, Banks, Haslow, Knight, Allison, Hollingswood, Houghton, Robb, Lawson, Nield, Hollings, Green, Seddon, with the clerk (Mr. Mee), and assistant clerk (Mr. Ward).

The chairman, Mr. Farrer, attended later. CHILDREN'S HOMES.

At a meeting of the above committee, the offer of Messrs. J. B. & Co. of Leeds, for the supply of cloth for girls' jackets was accepted, the price being 3d per yard for cloth 54 inches wide, and in six different shades.

NEW BUILDING COMMITTEE.

On the recommendation of the above, it was decided to purchase a piano for £28 for the nurses' home, and one for the dining hall at £27 10s. The question of an organ for the dining hall was adjourned for a month.

BOOKED APPOINTMENT OF A CHAPLAIN FOR THE WORKHOUSE.

The Rev. A. J. Irvin proposed that the Guardians appoint a chaplain for the new workhouse. There were, he understood, 245 inmates in the workhouse, of which he understood, 145 belonged to the County of England (some perhaps only nominally), 39 to the Wesleyans, 35 to the Roman Catholic Church, the remainder belonging to other denominations. He suggested that the Rev. W. B. Pierson, vicar of Bothwell, be appointed chaplain, at £50 per annum.

Mr. Banks seconded the motion.

Mr. Harlow said that he had no complaint on this matter either from the Guardians or the inmates themselves; he trusted the resolution would be defeated by a large majority, as he did not consider sufficient reasons had been given to necessitate a change. From Mr. Irvin's remarks, he gathered that there was something more wrapped up in this proposition than had been expressed, and that was the question of finance and of gaining predominance.

Mr. Knight: Nonsense.

Mr. Harlow: I have made the statement, it is my opinion, and I trust myself upon the protection of the Chairman in expressing it. Dr. Hawyard and Mr. Hargreaves, spoke in opposition, the latter remarking that the Nonconformists of Bothwell would, he thought, continue the services which had been so successfully carried on by their brethren at Huntslet, whose officials and preachers would be prepared to continue their help.

The Chairman's remark that four chaplains should be appointed if any at all. The Rev. J. Harris, of Bothwell, would be prepared to take up the services he understood in November of the same order of prayer conducted.

Mr. Robb, Mr. Nield, Mr. Hollings, Mr. Green and Mr. Crosthwaite also spoke in opposition, the latter remarking that as a member of the Finance Committee, whose duty had been given to necessitate a change. From Mr. Irvin's remarks, he gathered that there was something more wrapped up in this proposition than had been expressed, and that was the question of finance and of gaining predominance.

Mr. Knight: Nonsense.

Mr. Harlow: I have made the statement, it is my opinion, and I trust myself upon the protection of the Chairman in expressing it.

Dr. Hawyard and Mr. Hargreaves, spoke in opposition, the latter remarking that the Nonconformists of Bothwell would, he thought, continue the services which had been so successfully carried on by their brethren at Huntslet, whose officials and preachers would be prepared to continue their help.

The Chairman's remark that four chaplains should be appointed if any at all. The Rev. J. Harris, of Bothwell, would be prepared to take up the services he understood in November of the same order of prayer conducted.

Mr. Robb, Mr. Nield, Mr. Hollings, Mr. Green and Mr. Crosthwaite also spoke in opposition, the latter remarking that as a member of the Finance Committee, whose duty had been given to necessitate a change. From Mr. Irvin's remarks, he gathered that there was something more wrapped up in this proposition than had been expressed, and that was the question of finance and of gaining predominance.

CO-OPERATIVE CHOIR CONTEST.

A choral contest promoted by the Co-operative Union, Messrs. T. J. & Co. of the Mechanics' Institute, Burnley, on Saturday, last, was a success. The contest was held at the house of Bolton, Burnley, Colne, Farnworth, Huddersfield, Leeds, and Nelson, and after a keen contest, the adjudicator, Mr. T. Knight, awarded the first prize (consisting of a silver valued 20 guineas, and 15 guineas in money) to the Leeds Co-operative Choral Society, conducted by Mr. Stephen Hall, obtaining 115 marks out of a possible 120. Bradford came second with 114 marks and Burnley third. It was the well in connection with the annual Co-operative gathering recently held in the Bothwell Mechanics' Institute.

BUS OVERTURNED AT OUTWOOD.

Last bus night, from Wakefield to Louthouse on Saturday night, heavily laden with passengers, was overturned when a short distance from Louthouse Gate. The driver, named John Robinson, was about to cross the road when the bus ran into the cutting made in connection with the construction of the tram route from Wakefield to Leeds, and the bus was upset. Fortunately only one passenger (a Miss Lorraine Oakes) was injured, although several persons on the top of the conveyance were severely shaken. One of the three horses had its near foreleg badly smashed, and had to be slaughtered.

THE REV. S. CHADWICK AT BOTHWELL.

The above named talented minister, of Leeds, visited Bothwell on Tuesday last, and preached in the Wesleyan Methodist chapel, to a good congregation. The effort was one promoted by the Old Scholars' Committee, in the interests of the new school building.

After the service, a public tea was provided in the school-room, and was well-attended. At night, a large congregation assembled to hear Mr. Chadwick lecture on "The Master Key of modern Problems."

The Rev. J. Harris opened the meeting and called upon Mr. J. Morton to preside. The Chairman spoke in appreciation of Mr. Chadwick's services, and called upon him to deliver his lecture.

Mr. Chadwick traced the various religious developments since the Reformation, and remarked on the great men for the times which were passing. He said that the Master Key of modern Problems was the Reformation.

SCIENCE NOTES AND
GLEANINGS.

The Ganges and Bacteria.
Is there a scientific basis for the universal faith among Hindus in the cleansing qualities of the Ganges, as well as in its potential sanctity? Careful experiments, says T. P. H. Huxley, have shown that the river possesses extraordinary and inapplicable antiseptic properties. A Government analyst took water from the main source at Benares, which contained millions of cholera germs. When emptied into a receptacle of Ganges water, insects which they had died. He took undeniably pure water from the Ganges, and the cholera germs were propagated and swarmed in it. When they were tried repeatedly, with the same results. Does this explain the comparative immunity of Benares from cholera epidemics on a large scale in a city which secures the most favourable conditions for its propagation?

How Gunpowder was Made in Early Ages.

General Joseph Wherry, U.S.A., in a lecture, remarked that in China the soil is impregnated with nitrate, which gives the credits to that country of having produced the first gunpowder. The Chinese have made of wood-lump ground strongly impregnated with nitrate must have existed every day, and when such fire was extinguished a portion of the nitrate was absorbed by the soil, and the residue of which would, of necessity, become the basis of the nitrate in the soil. By this means two of the ingredients of gunpowder were brought together, says *Cassell's Magazine*, and it is a natural fact when another fire was kindled on the same soil, the nitrate was again brought to investigation, and then the manufacture of gunpowder was conceived. Therefore this is true on the subject of the origin of gunpowder and artillery goes far back in the days of the past.

Tests for Motor Speeds.

In view of the extraordinary speeds said to have been attained by some of the competitors in various motor-car races, and the difficulty of verification, an apparatus that shows the rate and distance traversed in unmistakable terms should be of considerable value. Such an apparatus is described in *Illustrated Scientific News*. It is a clever adaptation of the principle of the principle of a revolving clock-face with a paper dial attached and pencil marking over the dial. The distance traveled is any desired length, and the apparatus, which is all mechanical, is easily and cheaply made. For instance one of these removable paper dials are marked with hours and minutes, and it is possible to run the vehicle as at rest from 8 o'clock to 8.45, that from 8.45 to about 8.17 it covered five miles, was at rest till 9.22, and so on.

ROTHWELL SCHOOL BOARD MEETING.

ANTICIPATED EXPENDITURE.

INTERESTING STATEMENT BY MR.

BATTY.

A monthly meeting of the above Board was

held on Friday night, at the Rothwell School,

Mr. W. Lunn, vice-chairman, presiding.

There were present Mr. A. Batty, Mr. W.

Hargreaves, Mr. V. Lambert, with the clerk

(Mr. A. Marshall).

FINANCIAL STATEMENT.

Mr. Batty, in presenting the estimate of

income and expenditure for the next twelve

months, said:-

As you are aware there have been during

the last few weeks considerable changes made

in the political world, owing to the resignation

of certain members of the present Government.

Many of the important positions in the Cabinet

have been filled, and the same thing applies to

our own local Government so far as regards

the School Board. Some months ago, Mr.

Shurmer, a member of this Board and Chairman

of the Finance Committee, vacated his position

(not on any question of policy, or disagreement

with his colleagues), but merely owing

to having to remove from the district for

business purposes. It therefore remains for

me, as a member of the Finance Committee, to

lay before you a statement of the probable

income and expenditure for the year ending

September 30th, 1904. The Education Act

of 1902 (actuated, as some would have us

believe) came into force in the district on

April 1st, 1904, when matters will be handed

over to the West Riding County Council and

our duties as members of this School Board

will cease. Whether the change will for

good or ill remain to be seen. My duty

now is to give figures so far as relates to the

whole 12 months, but only to ask for sufficient

aid to tide us over the next six months ending

September 30th, 1904. I will now endeavour

upon some building Chancellor of the Ex-

chequer to afford his Budget to another gov-

ernment appointed by the said West

riding County Council. I can only

state, not to be more intelligent or appreciative

one, than is met here to night, or one, which

will carry out the duties more conscientiously

than the last one has done in the past by this

expiring Board.

Seven years ago when I was appointed

Chairman of this particular Committee, I started

with a very small income, but since then, and

what was considered an innovation, but an

improvement, viz: to give in *detail* the vari-

ous items of income and expenditure each

year, a duty which was pleasing to myself

and appreciated by the ratepayers generally,

and the work has since been ably performed

by my successors in this important position.

In making your acceptance and approval of

my figures, it will be found that the sum re-

quired for education purposes is a consider-

ably increasing amount over past years, but

we being a progressive Board, one which we

believe to be the children in order to give

them the best education possible, and accordingly

to pay teachers, salaries commensurate with

their position, there is little or no cause to

grumble at the amount of the School Board

Rate as it will be agreed fully to give in

to the ratepayers for the money expended.

Our estimated income for the year is £1894,

and the expenditure £2475, leaving a deficiency

to be raised by rate of 2/6.

Income—Our income for the 12 months

just ended, was £2412, and expenditure £2980

leaving a balance in hand Sept. 30th, 1903, of

£144 6s 6d in order to leave a respectable

sum for our successors to have now calculated

on £200 as the deposit in bank.

AGRICULTURAL RATES Act gives us £26

3s 6d, which is a stationary item.

ANNUAL GRANTS—As you are aware, our

attendances are now hoping to also increase

our grants to £1100 or £33 more than last

year, a not extravagant expectation, although

nothing will come in from Wood Lane School.

GRANTS—We have received during the

past 12 months £251 6s under this head

but to lift this to £250.

LETTINGS—These brought in the sum of

£21 5s 6d, as now estimated at £20.

SALES OF NEEDLEWORK & COOKERY are

expected to bring in at least £15.

£1894, leaving a deficiency of £2861. We

propose to issue precepts for half of the

year as follows—Rothwell Overseas £1800,

OULTON v. MIRFIELD UNITED

It was most regrettable that the weather on Saturday afternoon last was so foggy and unfavourable to comfortable witness of the leading winter pastime, the threatening rain and extreme cold keeping many indoors who otherwise would have turned out to follow their favourites. The match on Oulton Golf Course was an important one, Mirfield, the victors, holding the third position in the West Yorks County League table, to Oulton second and Bradford City Reserves first. There consequently an unusual amount of interest in Saturday's game, and on recent form it was little to suggest on which side victory might be expected to rest. Notwithstanding

ROTHWELL WHITE ROSE v.
ACTON HALL (FEATHERSTONE)

An ordinary match between the above played at Rothwell, on Saturday last, in a foggy weather. The homesters had ahead of them Boyes, Jeffries and W. Ward, the places being filled by Blacker, O. Kendrew and W. Taylor. The game ended in favour of the home team by 3 goals to nil. The goals were scored by Stratley 2 and Horsfield 1.

BOTHWELL PARISH CHURCH
HUNSLLET WESLEY MISSION.

The senior league encounter between above teams was witnessed at Hunstlet on Sunday last. The Parish team were with the services of Woodhead and Elvist, the visitors being filled by Illingworth and the visitors missing the toss decided to go downhill, and the game had not been in a very long before Illingworth opened score, and was followed by another from out of Hayes, whilst two more were disallowed. The visitors did most of the pressing, and only being called on one occasion to handle the ball. In the second half, the visitors were whilst just before the game stopped, the homesters scored in semi-darkness, the game ended in a win for Rothwell by goals to 1.

BOTHWELL WHITE STAB. v. ARMI
TEMPERANCE.

The Starites paid a visit to Armley in Senior League on Saturday last, with a poor team, and consequently were defeated by 2 goals to nil. Ward conceded the goal for the homesters, this being the

which they have won this season.

MIDDLETON v. HUNSLET WESLEY.

This League encounter took place at Middleton on Saturday and resulted in a win for the homesters by 2 goals to 1. The scorers were Laurence, Foster, and Butterfield.

LEEDS CAMERONS v. STOVINGTON UNITED.

The Leeds league match between the above teams was abandoned owing to fog on Saturday, after the Camerons had scored three goals. The visitors who are at present heavily backed by the majority of players failed to penetrate the home defence.

NOTH WORTH WARMING MEN'S CLUB.

On Sunday evening last, Mr. F. Abbliss, who had presided over a good concert at the home assembly, gave Mr. M. C. B. B. an address on "Working Men's other mission and goal." The speaker dealt with pre-historic club life in Ath-

The official track return for the abn was made during Dec. 6th, 1909 and was \$48,247.25 for the year ending Dec. 31st, 1909. The total for the last year was \$48,247.25 for the year ending Dec. 31st, 1909. For the 28 weeks ended June 28th, 1909, the return is \$29,816 against \$28,760 for the corresponding period last year, an increase of \$1,056.

We understand the Board of Trade Inspectors have gone over the lists this week and it has been found that the small passenger trains may be attended to. Passenger trains may be attended to by one person instead of two as at present. It is proposed to run a man or woman on each train.

In the evening there was a good attendance to hear the Bottomboat Choir render the service of song entitled "The lace in the shir." Mr. G. H. Copley was the reader, Mrs. Hinchohille accompanied, and Mr. W. Jennings occupied the chair. A vote of thanks to the choir and chairman, was carried on the motion of Mr. J. T. Kilburn and Mr. T. Ward. A collection was taken in aid of the bazaar fund.

PEOPLE'S PICTORIAL SERVICES

The Bothwell Temperance Choir rendered the service of song entitled "The Gipsy God for the dying Saviour," in the Mechanics' Hall on Sunday evening last, before a good company. The service was illustrated by five light views by Mr. W. Stead, and the proceedings were under the charge of Mr. G. Priest. The narrative was read by Miss Annie Bottom, Mr. W. H. Ward accompanied, and the hymn was wielded by Mr. M. Smith.

on leading with a score of one goal to nil. The visitors, it should be said, played a very

score indicated in the first half in holding off their opponents. Their introductory play in the second half suggested that much of their strength was spent, for although they now knew the wind they could not utilise its advantage as the Oulton team had done. A considerable portion of play in the latter part of the game was contested in the Farnley half. In fact to such an extent did the Oulton players get the upper hand that they scored against the wind. One sending in a most peculiar shot from the back side, which appeared to be going clean over the goal, but the wind got hold of the ball and after playing with it in a manner troubling to the visitors' condition, carried it over his head under the crossbar and, into the

STOURTON MAN SENT TO PRISON FOR

On Friday last, at the Leeds County Court, Judge John Gresham, who has been visiting the children, coal dealer, Francis Green, Leeds, brought an action to recover £2 6s. damages from the Bethwell Gravel District Council on the ground that the council had allowed the Mr. Arthur Wylie appeared for the plaintiff, and Mr. O. T. Palmer, appeared for the defence.

The case for the plaintiff was that on December 11th he was leading coal from the Leeds railway with a horse and two men, and that on the 12th of the same month, at the Bethwell Gravel District Council's gravel pit, the horse was killed by a steam roller belonging to the Bethwell Council run into his cart and killed the horse.

Judge Gresham: I must have been a more experienced steam roller than Lord Salisbury's at the time.

The defence was that the plaintiff was warned to go on the other side of the road, which was not been relied on, but that he persisted in going straight on, and that he was killed by a steam roller that he ran into the steam roller, which was stationary at the time.

His Honour found a verdict for the plaintiff and gave £24 4s.

PROVISION FOR STRANGLERS IN CHURCH

On Friday last, at the Leeds County Court, before the Judge of the Peace—John Threlkeld, coal dealer, Leeds County, Leeds—was heard a case brought by the plaintiff against the defendant, for a sum of £25 6s., damages for conversion of a horse and harness, and for the cost of the negligence of their servants. Mr. Arthur Wylie appeared for the plaintiff, and Mr. D. P. Palmer, solicitor, for the defendant.

The case for the plaintiff, was that on December 11th he was lending coal from the defendant's shop to a Mr. John Horse, and two or three weeks ago, the horse and harness were stolen, and while going to a fair at Kildale Road a steamer boiler belonging to the defendant was run into his horse and smashed it.

Judge Greenwood : I must have been a move on the 11th, and I have not been to the Leeds County Court at Leeds.

The defence was that the plaintiff was wrong in lending the horse and harness, and that the horse and harness were not stolen, but that he persisted in trying to get redress on the left side, with the result that the horse and harness were stolen, which was the time.

His Honor found a verdict for the plaintiff, and gave costs.

On Friday last, at the Leeds County Court-house, His Honor Judge Laidlaw, sitting with Messrs. J. A. G. Macdonald, J. P., and J. M. Macdonald, Esq., J. P., as assessors, tried the case of *James Macdonald, Esq., v. James Macdonald, Esq.* The plaintiff alleged that the defendant, on the 25th of October, 1886, had wrongfully and unlawfully taken from the plaintiff a certain horse and two saddle bags, and was guilty of the crime of larceny. The defendant pleaded guilty to the charge. The jury returned a verdict in favor of the plaintiff, and assessed the damages at \$25.00. The court then ordered the sheriff to execute the writ of *habeas corpus* in favor of the defendant, and to return him to the plaintiff's custody. The court also ordered the sheriff to execute the writ of *sequestration* in favor of the plaintiff, and to seize the horse and saddle bags. The court then adjourned until the next day.

On Friday last, at the Leeds County Court, before the Hon. Mr. Justice Stirling, the *Prothonotary* and *Deputy Clerk* of the Court, Messrs. J. H. Childers, coal dealer, and Parsons County, Leeds, brought an action to recover £25 6s. damages from the said John Wm. Duff, a coal dealer, for the non-payment of a bill of exchange drawn by the said J. H. Childers, for the said £25 6s. on the said John Wm. Duff, and for the said J. H. Childers to pay the said bill of exchange.

Mr. Arthur Wylie appeared for the plaintiff, and Mr. D. P. Palmer, solicitor, for the defendant.

The case for the plaintiff, was that on the 11th of December last, he was lending coal to the said John Wm. Duff, for the purpose of enabling him to get the said coal, which was to be delivered during the spring term, and while going down Wakefield Road a steam roller belonging to the said John Wm. Duff, ran into his cart and smashed it.

Justice Greenwood : I must have been a more merciful coal dealer than Lord Salisbury at the Leeds County Court.

The defendant was that (plaintiff) was wrong in going to the coal on the other side of the road, which was the right of the said John Wm. Duff, and that he was wrong in getting through on the left side, with the result that he ran into the steam roller, which was the fault of the plaintiff.

His Honor found a verdict for the plaintiff for £25 6s.

PROFESSIONAL NOTICE.

NOTICE FOR STRANGERS IN CHURCH.

THE Editors of the *Richmond Times*, Sir,

As Editors of the chief paper in Richmond, I address the following to you,—and to all who read it,—in connection with the notice in your issue of the 10th inst. of a recent Sunday evening, though we would not like the church there. We took our seats, as usual, and were surprised to find that the service, when we were late, was not to change our seats by some later arrivals, but to continue as usual, and that the seats we occupied were empty. Being again requested to leave, and refused, and as protest, I left the building.

Have before notice of such incidents taking place in the churches of Richmond.

I think that this treatment of strangers, who declined lack of that spirit supposed to be the characteristic of the church, is a means of earning strangers from a similar spirit, and is a means of earning that those seats are supposed to belong to some particular person, even though not paid for, should be plainly made, so that it may be seen at a glance whether the seats are Free or Reserved.

Yours etc.

CHURCH-GOER.

On Friday last, at the Leeds County Court, the Hon. Judge Gresham—John Chivers, coal dealer, Francis Street, Leeds, brought an action to recover £25 6s., damages from the Bowdell Street District Council, for the alleged negligence of the driver of the Mr. Arthur Wither appeared for the plaintiff, and Mr. O. T. Palmer, barrister, for the defendant.

The case for the plaintiff was that on December 11th he was leading coal from the Bowdell Street colliery with a horse and two-wheeled spring cart, employed by the Leeds & Wakefield Road, when the steam roller belonging to the Bowdell Council ran into his cart and smashed it.

Judge Gresham: I must have been a more speedy steam roller than Lord Salisbury's at the time.

The defence was that the plaintiff was warned to go on the other side of the road, which was not been rigid, but that he persisted in going on the same side, and that he was not well that he ran into the steam roller, which was stationary at the time.

The jury found a verdict for the plaintiff of £24 4s.

PROVISION FOR STRANGERS IN CHURCH.

To the Editors of the *Rathfriland Times*,
in the Emerald.

As Editors of the chief paper in Rathfriland, I address the following to you—&c., &c., being in the neighbourhood of Rathfriland, and being a member of the same, I would like the church there. We took our seats, as usual, for service, and our surprise was when the minister, after the usual prayer, invited us to contribute to the offertory. This was not our first time at the church, and this was not the first time that we had been asked to contribute to the offertory. This was not our first time at the church, and this was not the first time that we had been asked to contribute to the offertory. This was not our first time at the church, and this was not the first time that we had been asked to contribute to the offertory.

On Friday last, at the Leeds County Court, before Mr. Justice Willes—John H. Chivers, coal dealer, of Parkside Court, Leamington, brought an action to recover £25 6s., damages for loss of profits of his business, and for the cost of the negligence of his servants. Mr. Arthur Wylie appeared for the plaintiff, and Mr. D. P. Palmer, counsel, for the defendant. The case for the plaintiff, was that on December 11th he was lending coal from his store to the Leeds County Council for the following week, and that on the following spring cart, and while going down Wakefield Road a steam roller belonging to the Leeds County Council ran into his cart and smashed it. Justice Greenwood "I must have been a more recently sented fellow than Lord Salisbury at the Concert at Europe. (Laughter). The defence was that the plaintiff was wrong to go on the other side of the road, which was the usual position, but that he persisted in going to get through on the left side, with the result that he ran into the steam roller, which was stationary at the time. His Honor found a verdict for the plaintiff £24 4s.

THE EDITORS OF THE RAILWELL TIMES.

PROPOSITION FOR STRANGERS IN CHURCH.

To the Editors of the Railwell Times, Sir,

As Editors of the chief paper in, Bodelwyddan, I address the following to you, in connection with the proposed alterations in the neighbourhood of Bodelwyddan a recent Sunday evening, thought you would like to stir the church there. We took our seats, and had been long seated, when we perceived that there had been arrangements were prepared to supply a service, which we were sure, would be of service to change our seats by some later arrivals, and to their convenience. We left we naturally objected, especially as my friend asked, "are not the seats free and unpaid for, at the same time, pointing out that most of the adjacent seats were empty. Being again requested, we refused, and as a protest, I left the building. I have been assured that the same objection was made in this church, but could hardly credit it. I think that this treatment of strangers, who are supposed to belong to some particular party, is very unchristian, and altogether unbecoming with the word. Christian. As a means of creating strangers from a similar situation, I would suggest that those seats which are supposed to belong to some particular party, even though not paid for, should be plainly marked, so that it may be seen as a means of making the seats free or Free of charge.

Yours etc.

CHURCH-GOERS.

On Friday last, at the Leeds County Court, before his Honour Judge Grosvenor—John A. Childers, coal dealer, Parsons Street, Leeds, brought an action to recover £25 6s., damages from the Bowdell Bros. District Council, on the ground that the said council had unlawfully removed the coal rollers of the plaintiff.

Mr. Arthur Wray appeared for the plaintiff, and Mr. O. P. Palmer, proctor, for the defendant.

The case for the plaintiff, was that on December 11th he was leading coal from his colliery to the Leeds Central railway station, and while doing so he was stopped by a steam roller belonging to the Bowdell Council near his cart and smashed it.

Judge Grosvenor: I must have been a more speedy steam roller than Lord Salisbury's at the Concert at Exeter. (Laughter).

The defence was that the plaintiff was warned to go on the other side of the road, which was not being used, but that he persisted in going to get through on the left side, with the result that he ran into the steam roller, which was stationary at the time.

His Honour found a verdict for the plaintiff and sent £4 4s.

PROVISION FOR STRAYING IN THE CHURCH.

To the Editors of the Rathfrill Times.

As Editors of the chief paper in Rathfrill, I address the following to you—We are a most genial congregation, though we are not in the church there. We took our seats, as regular churchgoers. We were warned to get up, and we refused, but we were asked to change our seats by some later arrivals, namely for their convenience. "This was our seat," we said, "and we are not the same free and unpaid, for the same time placing out that most of the adjacent seats are empty." Requests made, and we refused, and on our return of some time, have heard since of a protest taking place in this church, but could hardly credit it, as we were not the same free and unpaid, for the same time decided that that spirit opposed to synagogues with the worst Christian.

His Honour found a verdict for the plaintiff and sent £4 4s.

I would suggest that those seats which are supposed to belong to some particular person, were though not paid for, should be placed in the hands of some one, so as to ascertain whether the seats are "Free" or otherwise.

Yours etc.

CHURCH-GOER.

On Friday last, at the Leeds County Court, before His Honor Judge Gresham—John Chivers, coal dealer, of Pease Street, Leeds, brought an action to recover £5 6s., damages for the loss of a horse, which he claimed as the property of the Leeds County Council, on account of the negligence of their servants. Mr. Arthur Wither appeared for the plaintiff, and Mr. D. P. Palmer, counsel, for the defendant.

The case for the plaintiff was that on the 20th of May last a leading colt, named "Robin Hood" Collier, belonging to the plaintiff, was taken by the Leeds Corporation, and placed in a leading spring cart, and being put down a "Halsford Road" a steam roller belonging to the Leeds Corporation, ran over and crushed it.

Judge Gresham: It must have been a more speedy steam roller than Lord Salisbury's at the Conference at Europe. (Laughter).

The defence was that the plaintiff was warranted to go on the other side of the road, which had not been raised, but that he persisted in trying to get through on the left side, with the result that he was sent by some later arrival, the steam roller, to the stationary at the time.

His Honor found a verdict for the plaintiff, and awarded costs £24 4s.

PROVISION FOR STRANGERS IN CHURCH.

To the Editors of the Rathwell Times.

As Editor of the chief paper in Rathwell, I address the following to you—And, as a recent Sunday evening, thought we would visit the church there. We took our seats in the church, and were surprised to observe a service, when we were apparently to be charged our seats by some later arrivals, and that they were not to be seated in the church, but to sit in the hall, and that the seats were empty. Being asked requested, we refused, and a protest, like the building, have before heard of such incidents taking place in this church, but could hardly credit it. We were not the least bit surprised, and we decided that of that spirit opposed to us, and to the church, we were not to be so. On Friday last, at the Leeds County Court, before His Honor Judge Gresham—John Gresham, chief dealer, Parsons Street, Leeds—brought an action to recover £5 6s. damages from the Bradford Free District Council on account of the negligence of their servants. Mr. Arthur Wray appeared for the plaintiff, and Mr. D. P. Palmer, solicitor, for the defendant. The case for the plaintiff, was that on the morning of 11th he was leading coal to the Leeds Free District Council, and was engaged in unloading the spring cart, and while doing so, a wheelbarrow, which was being pushed by a man belonging to the Leeds Free District Council, ran into his cart and smashed it. Judge Gresham: I must have been a morning's steam roller than Lord Salisbury's at the Council at Europe. (Laughter.) The defence was that the plaintiff was wrong in going on the other side of the road, which was the usual practice, but that he persisted in doing so, got through on the left side, with the result that he ran into the steam roller, which was stationary at the time. His Honor found a verdict for the plaintiff, and awarded costs. £24 4s.

PROVISION FOR STRANGERS IN CHURCH.

To the Editors of the *Northwestern Times*, Sir,

As Editor of the chief paper in British Columbia, I address the following to you—and am sure that you will not mind my doing so, as a recent Sunday evening, thought you were at the church there. We took our seats, as usual, and were surprised to find that the service, when we were about to begin, was to change our seats to some later arrival, and that the seats were empty. This was not only objected, especially as my friend asked, "are not the seats free and unpaid for, at the time pointing out the worst of the situation, but the seats were empty. Being again refused, and as a protest, I left the building. I have before heard of such incidents taking place in our churches, but never, as I have now.

I think that this treatment of strangers, long decried lack of that spirit supposed to be in our churches, but now, hardly confined to the churches, is a means of driving strangers from a similar service. As a stranger, I would suggest that those seats are supposed to be open to some particular persons, even though not paid for, should be plainly marked, so that it may be seen as a means whether the seats are "Free or Reserve."

SOWERBY BRIDGE V. ROTHEWELL WHITE ROSE.

At Sowerby Bridge, Early on Friday night very early morning for Sowerby, the ball just going into the net. Hopkinson was also prominent for some capital dribbling which caused Rothwell again to defend. They eventually cleared to neutral territory, and then played for some time. Sowerby kept up an almost constant attack, and eventually a goal was scored. The visitors' goalkeeper, Mr. Thompson, shot in clearly, and the home team's goalkeeper, Mr. Hopkinson, was hand-picked by the absence of Bagg, the captain, nearly all the game, and as the ground was very muddy, a very muddy match, the lines were very misleading.

SCIENCE NOTES AND GLEANINGS

Another machine in the same given to a yellow paper which takes the place of the red glass in the camera for developing photographs. It is the invention of Mr. H. W. Wood, of the University of London.

For Ultra-Violet Spectra.
Professor R. W. Wood, at the meeting of the American Physical Society, has announced the invention of a transparent ultra-violet light filter. The filter is made of a material which is transparent to ultra-violet light, but opaque to the rest of the spectrum. It is useful in the study of the spectra of the stars, and also in the study of the spectra of the sun. The filter is made of a material which is transparent to ultra-violet light, but opaque to the rest of the spectrum. It is useful in the study of the spectra of the stars, and also in the study of the spectra of the sun.

Effect of Radium Rays.
Dr. Paulin found that a tube containing radium produced a star on the skin in a few hours. The tube also induced paralysis in young mice when it was held along their spine. The same effect was produced in mice after a longer application, for example, over the night. The effect was therefore, that the invisible rays emitted by radium induced a form of paralysis in mice. The effect was also induced by exposure to the rays.

Double Glazing and Loss of Heat.
Dr. Schott, of Ghent, finds, by experiments on glass panes, that the loss of heat from a pane of glass, with a certain distance between the panes is a minimum. The loss of heat from a pane of glass, with a certain distance between the panes is a minimum. The loss of heat from a pane of glass, with a certain distance between the panes is a minimum. The loss of heat from a pane of glass, with a certain distance between the panes is a minimum.

Aluminum as Whetting Agent.
A German investigator has recently discovered an exceedingly valuable and important property of aluminum, which consists in its application as a whetting agent. The whetting agent is used in the process of whetting, and is used in the process of whetting. The whetting agent is used in the process of whetting, and is used in the process of whetting. The whetting agent is used in the process of whetting, and is used in the process of whetting.

Smoker's Heart.
Smoking is a habit which persons for many years, perhaps for twenty years and longer, have acquired. It is a habit which is very dangerous to the health. It is a habit which is very dangerous to the health. It is a habit which is very dangerous to the health. It is a habit which is very dangerous to the health.

The Wind as Disease-Carrier.
According to German physicians, the wind carries the germs of tropical diseases to lands in the temperate zone. The wind carries the germs of tropical diseases to lands in the temperate zone. The wind carries the germs of tropical diseases to lands in the temperate zone. The wind carries the germs of tropical diseases to lands in the temperate zone.

Weighting Thoughts and Sensations.
Starting with the idea that the hand varies sensibly in size with the amount of blood present in it at any moment, Professor H. W. Wood has made some very interesting investigations. The investigations have shown that the hand varies sensibly in size with the amount of blood present in it at any moment. The investigations have shown that the hand varies sensibly in size with the amount of blood present in it at any moment.

The Hearing of Fishes.
The presence of an ear in fishes has been described by Huxley, Müller, Owen, and other physiologists to the ear causes them to lose their equilibrium, but it is not clear how they are able to hear. The ear causes them to lose their equilibrium, but it is not clear how they are able to hear. The ear causes them to lose their equilibrium, but it is not clear how they are able to hear.

The Structure of White Feathers.
According to Mr. E. M. Brown, of Barrow, Pennsylvania, white feathers are made of a substance which is very different from the substance which makes up the rest of the feather. The substance which makes up the rest of the feather is very different from the substance which makes up the rest of the feather. The substance which makes up the rest of the feather is very different from the substance which makes up the rest of the feather.

Colour Photography.
Mr. Miller, a photographer of Lexington, Virginia, has introduced a process of colour photography which promises to be successful. The process is very different from the process which is used in the rest of the world. The process is very different from the process which is used in the rest of the world. The process is very different from the process which is used in the rest of the world.

WORDS OF WISDOM

Friendship that flatters often goes to a husband.

Suspicion disposes kinds to tyrannise and husbands to jealousy.

Of all expenses waste of time is the most extravagant.

Spent not all you have, believe not all you hear, and tell not all you know.

Hope is like the sun which, as we journey towards it, casts the shadow of our burden behind us.

Shorter is the basis of all true friendship.

Without security it is like a ship without ballast.

The most delicate and the most amiable of all pleasures consists in promoting the pleasure of others.

Men and women who are actively engaged in life, the interests of others, are the only people that life is without interest.

Do not do to live without some clear intention towards which your living shall be bent. Mean to be something with all your might.

If you are false to your duty it breaks a thread in the loom, and you are the defect when the weavings of life are unraveled.

Truthfulness is a cornerstone in character, and if it is not firmly laid in youth, there will be a great gap in the foundation ever after.

Write your name with kindness, love, and mercy on the hearts of the people you are in contact with year by year, and you will never be forgotten.

One thing I solemnly desire to ask all children (right obedience and love of all persons) to take into life the power of unselfish assistance.

It is the sign that your reputation is small and shaming if you are unable to make praise your own; and it is the token of unbecoming to others to fear such commendations.

Progress comes out of honest and energetic action. When it appears, it is the result of the work of many of your life, and it is the sign that you are making it all your own.

When you meet with neglect let it rouse you to exertion instead of mortifying your pride. Let it show how much more you are capable of, and neglect, and improve those weaknesses which are common at times and in all.

There is no substitute for hard work in winning success. There is always a element of chance, but it is never the greatest element. Chance is simply prepared the opportunity, and opportunity is only a chance for the successful.

It is the character of the man that is the key to his success. If he will not suppress his competitors, he will never be the greatest. He will never be the greatest if he will not suppress his competitors.

For want of self-reliance many men are engaged in their lives in fighting with difficulties of their own making, and others are engaged in their lives in fighting with difficulties of their own making.

Conquer souls may be excellent. Some persons are so proud of their goodness, or of their attainments, or of their position, or of their character, or of their family, that they become offensive to many who would otherwise be their friends.

The home is the nation and the church of the world. All that is good and noble and heavenly government of the world is the family. It is the government of the world, and it is the government of the world.

A mark of a wise man is an efficient man who is the greatest thing in the world to him.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

How the courage to face difficulties, not let it lick you under the nose, but let it lick you under the nose.

LUCKY AND UNLUCKY DAYS.
The days of the week have been supposed to exert special influences on the human mind. Monday is the day of the sun, Tuesday of the moon, Wednesday of the stars, Thursday of the planets, Friday of the winds, Saturday of the clouds, and Sunday of the earth.

Monday for wealth.
Wednesday the best day of all; Saturday the day of the sun, Sunday the day of the moon, Monday the day of the stars, Tuesday the day of the planets, Wednesday the day of the winds, Thursday the day of the clouds, and Friday the day of the earth.

Friday was, and in many places is still, considered an extremely unlucky day. In former times, Friday was considered an unlucky day because it was the day of the sun, and the sun was considered a bad omen.

THE SELF-WILLED HYACINTH.
"Oh, dear! I don't like to be buried in the ground, this way," said a blue hyacinth bulb. "It's so dark and cold, and I don't like it at all."

"You must," said a pink hyacinth, "or you never will see the light of day again."

"But I want to bloom," said the blue hyacinth. "I want to see the sun and the moon, and I want to see the world."

"I know it is time to get up," said the blue hyacinth. "I will go and see the world, and I will see the sun and the moon, and I will see the world."

Hints for the Home.
A month-end on linen, if not too brown, may be removed by mending with water and laying in the sun. Repeat the mending two or three times, and the mark will disappear.

Stains are very easily removed if put immediately in milk and slightly rubbed for a few minutes. If allowed to dry, they are not so easily removed, but can be by a little more effort.

Sunset Colours.

Many people if they were asked to state the colour of the sun would say that it was orange, and they could as confidently assert that the colour of the sky

investigations, however, point to the conclusion that the real colour of the sun is blue, while that of the atmosphere surrounding the earth is orange. Apparently the earth's atmosphere appears so translucent and translucent that it is hard to realise the fact that it has as much effect on the light and heat coming from the sun as if it were a roof of thick glass. It will readily be understood that any light passing through this screen will experience some remarkable modifications. When the rays of light that left the sun the blue rays were the strongest; but very soon after they entered the earth's atmosphere their progress was impeded, and of all

which at first were inconspicuous, had the ability of penetrating the earth's atmosphere, and were the most in evidence at the end of their long journey. The first step accordingly to be taken when investigating a sunset is to realise that the white light from the sun, which is commonly supposed to be composed of the seven primary colours, is in reality a rainbow of thoughtless rays of the original radiation. The further important point to bear in mind that all radiations of light are of different wave lengths. This fact, indexed as at the very foundation, so to speak, of all sunsets, and it is the prime agency by which their flaming gorgeous tints and colours are produced. It is due to this fact, for instance, that in the neighbourhood of

The spectrum are of a much longer wave length than any of their fellow-rays, and so are the best adapted for penetrating the dense bank of haze which so commonly floats over all large towns and cities. In such localities, as the sun sinks to rest, the green rays are first absorbed by this bank of haze, and then the yellow, and lastly the orange and the red, the latter more often than not being

OPENING OF THE NEW WORKHOUSE.

CONTINUED HOSPITALITY OF THE CHAIRMAN.

Yesterday evening, the chairman of the Guardians, Mr. John Farrer, of Oulton, and Mr. Farrer, entertained the inmates of the New Workhouse, in celebration of their removal from the old institution at Hunslet, to their new and comfortable home at Rothwell. The inmates were conveyed to the new premises on Monday and Tuesday last, after the buildings had been formally opened on previous Thursday, when, on the two succeeding days many residents and relatives inspected the new provision which the Guardians have made.

Mr. Farrer was lavish in his hospitality last week to a large and distinguished assembly, and last evening, when those from the buildings have been erected were entertained to high tea, nothing was wanting in the bountiful provision which had been made for the full enjoyment of the numerous guests.

Prepared by Messrs Wray, of Leeds, was served in the dining hall, being presided over by Mr. and Mrs. Farrer, members of the Board of Guardians, their wives, and many of the officials.

After the very entertaining programme of music was rendered, Mr. Farrer presiding, Mr. Lawrence Pith, accompanied by his wife, sang several songs, and Mr. Lawrence Pith, accompanied by his wife, sang several songs, and Mr. Lawrence Pith, accompanied by his wife, sang several songs.

Mr. Arthur Batty recited "The mysterious Guest," but his high voice was so much affected by the cold that he was obliged to stop.

recital of many humorous Yorkshire stories. Madame N. O. Bell, of Halesowen, gave fine readings of "Green Isle of Erin" and "Freckles' Dream," whilst Mrs. Spence, of Hunslet, a favorite Christmas carol, "The Children's Home," sang "I'm hiding, please sir, don't tell," and "The Teller's Tale," which was very much enjoyed by the inmates.

Mr. W. Davies, the Welsh tenor, and a five years' pupil of the Indian music master, Mr. H. H. Davies, of London, sang "The Nightingale," a difficult song of high merit, but which he sang with great success.

Mr. A. Atkinson, of Hunslet, the bass, is a vocalist of high attainment and his song "The Mighty Deep" and "The Ball" were enjoyable items.

At the close of the entertainment Mr. Dickenson proposed and Mr. Harlow seconded a vote of hearty thanks on behalf of the Guardians, and Messrs. Wray, for Mr. and Mrs. Farrer's continued and unbounded generosity in the opening celebrations of the new workhouse.

Mr. James Hargreaves supported the motion and put it to the vote, it being carried with acclamation.

FOOTBALL.

BEESTON HILL PARISH CHURCH v. OULTON. Beeston Hill Parish Church opened their home match in the West Yorkshire League on Saturday afternoon. Oulton had the use of the wind in the first half, Wensman setting the ball in motion. The Oulton left at once became conspicuous, but Enoch checked the movement, and the Beeston front line.

The Oulton front line was very aggressive, and early in the game Lee had a fast shot from close range disconcerting Oulton. Oulton played well, but they managed to score the first goal through J. Holmes after a good movement of the whole front line. Enoch made the movement, and the Beeston front line.

privileges enjoyed at the present time by Leeds

citizens. They also offered a ten per cent

proportional rate, which meant that the rate

for the period would not be increased in the

which obtained within the city. On the other

hand they would not have direct representation

as now, when all the consumers were repre-

sentable under Leeds they would be attached

to one of the South Leeds wards and would

only have one part of their four parts of the

Leeds. Leeds, like other cities had to look

to the inside or outside, and such outlying

parts as Rothwell would be made a ward

to be neglected. Since 1891 Rothwell had

increased rapidly in rateable value. In 1891

the gross estimated rate was £41,161,

to day it was £78,157. During the past

three years the rateable value had increased

£11,500. The Rothwell township had taken

its own share of the burden of its own

liabilities as any similar place in the kingdom.

Rothwell had got good roads, as good as the

Leeds Council would give, a fair water supply

—for which they were dependent on Leeds, and

little debts at present. The barest which

were running up before them, but the Leeds

Stourton sewage scheme, but new rateable

value would likely enable them to keep the rates

where they were. Leeds might give the

grounds and other things, but the Council at

the last meeting had decided to appoint a

committee to enquire into the provisions of play ground

and the Committee had been asked by Mr.

Farmer, and he believed they would be able

to arrange play grounds for some of the wards

on very reasonable terms. Upon that subject

to a great measure depended as to whether

they should join Leeds or go. They would

play for any body either for or against

the scheme. (Applause.)

The Chairman, in answer to a question by

Mr. J. R. Stannard, said the district had

meeting would have great influence with the

Local Government Board or Parliament, in

deciding the question, but he could not say

the decision of the meeting would be entirely

or of itself into the Leeds proposal.

Mr. Stannard: Can Leeds swallow us up

without our being at it? It is my point.

The Chairman: We hardly think that when

Mr. Walter Hargreaves said that when he

first heard the amalgamation proposal he

wanted to know what object Leeds had in

view, and he came to the conclusion that their

intention and aims were not altogether

philanthropic. Their aim, he thought, was

THE PROPOSED AMALGAMATION WITH LEEDS.

MEETINGS AT ROTHWELL AND STOURTON.

LEADS HAVE for years had designs on part if

not only in the present, but in the future, the

Leeds Union District. The proposals for

incorporating Stourton some years ago causing

uneasiness to ratepayers and anxiety to our local

governing body. They are again turning

their attention to the South east, and have pro-

posed a scheme of greater magnitude per-

haps than any other in the Leeds district, and

this adjoining rural districts, their latest

proposal being to take within the city boundary

the Leeds Union District, Rothwell, Stourton,

and Outon and Woodhouse.

The pro and con have for weeks provided

ample scope for discussion amongst the residents

and ratepayers, some being fascinated by the

admitted advantages which were likely to

accrue, whilst others, although admitting that

it might be a good thing in the long run, the

Leeds scheme, jibbed at the thought of extra

payment in rates which would inevitably follow

and said, as may do in regard to the proposed

deal changes, that it would be best to let

well alone. Many, however, in the absence

of reliable figures and conclusive argument

have preferred the "open mind" and have

shown a disposition to suspend judgment.

to the corresponding rate in Leeds being

£11. Rothwell always paid its way out

of the rate, and had a bona-fide charge

at the end of the year. Leeds had

the whole of its stock and stores to the good,

representing a considerable sum which it

could have used in any way it pleased.

Leeds treated their accounts more as a company concern, valued

its stock and stores at the end of the year, and

increased the stock at Rothwell did it

would increase the Leeds difficulty at the end

of the year by £10,000. Leeds had a

£20 per head, while £10 per head was

for ordinary purposes, such as sewage

treatment, hospital, road improvements, &c.,

ways, water, gas. The Rothwell debt was only

£12 1/2 per head. For repayment of this debt

and interest, Rothwell spent £12 a year.

Leeds, according to their estimate for the year

it was £12 1/2 on their non-trading debt alone.

Rothwell had paid off half the original amount

The scene is laid on a country road, and Alvin
is driving along slowly. A farmer stands by
the roadside and thus addresses him :—

"Hi, young fellow! haven't I seen you before?"

"Don't think so, sir."

"Didn't you drive by here yista'day?"

"I did."

"And the day before?"

"Right."

"Know the road party soon, I reckon."

"Know it now."

"Takes his time so you'll know he is the dard!"

"Know it in the dard now."

"That's all right, sonny; don't mind me."

"Always-on the road, you say?"
 "Noter horse for nuther road."
 "Y-ye?"
 "Travel many roads?"
 "Yes, I've been breaking this horse in."
 "Has 'pears to be party well broken now."
 "Teaching him the road, I 'hean."
 "What?"
 "Not another girl."
 "How?"
 "Well, if you're so interested I'll explain. Y-ye, I travel this horse over the road every day."
 "Y-ye?"
 "You must be the knowed road pretty well."
 "He oughter."
 "Then I take the girl riding."
 "Y-ye?"
 "And I start that horse along this road."
 "Y-ye?"
 "And knowing the road so well he don't ne much driving."
 "I see."
 "So tie the reins around the whip and even the tie is lovelly."
 "Y-ye?"
 "You've got three roads?"
 "Y-ye."
 "Three horses?"
 "And three--in--gal?"
 "Y-ye?"
 "Say, young feller, how much'll y' rent me?"

A STURDY HERO
One of the novelists, referring to his hero, says his character is—
His courage—well.
His voice back.
His heart sank.
His rise ran.
His eyes eyelaid.
His words burst.
His blood froze.
It appears, however, that he was able to put his hero through a more realistic chapter—
—George Reed-Hilly.

HIS WAY OF FIGHTING
There was a dozen of us in the overland of a hotel at night when the talk turned to the Civil War, and the man who had given himself the title of "Colonel" on the register casually remarked that he had been a member of a Gray's Cavalry, a horse or two, at Fair Oaks, after fighting for three or four hours and soaking the ground with blood.

CONCERT AT OULTON

Through the assistance of Mr. L. E. Greenwood and Mr. H. W. Higgins, a good list of artists had been secured for the concert, which was held in the Oulton Band Hall in aid of the new instrument fund. There was only a moderate attendance, but the concert was a very pleasant one. The first item was a large number of choruses, and the choir, under the direction of Mr. H. W. Higgins, was a very good one. The soloists were Mr. H. W. Higgins, who sang "The Song of the Lark," and Mr. H. W. Higgins, who sang "The Song of the Lark." The choir was a very good one, and the soloists were very good. The concert was a very pleasant one, and the artists were very good.

game and in the first quarter of an hour showed more football than in all the previous Saturday. After a fruitless corner-kick, however, dangerous for the first time, but had quickly to retire, and found the advantage, Woodhead scored from a scramble, while from another angle, the referee awarded a goal although the ball went over the goal line. At half time, the home team were leading by 3 goals to nil. Points rest—Hargreaves scored a beautiful goal shot, the custodian being completely taken. On a few occasions, the referee made the home team, but were never really dangerous, and failed to improve their position by a corner. O. Hargreaves in another goal, but for the referee's decision, the custodian being completely taken. The visitors, it should be said, played a very

ere indicated in the first half in holding their opponents. Their introductory play the second half suggested that much of their high was spent, for although they now had wind they could not utilise its advantage. Oulton team had done. A considerable amount of play in the latter part of the game centred in the Farley hall. In fact to an extent did the Oulton players get the wind that they scored against the wind, sending in a most peculiar shot from the side, which appeared to be going clean to the goal, but the wind got hold of the ball and after playing with it in a manner tantamount to the vicious conditions, carried it high head under the crossbar and into the

The scores here appeared decisive, but the
 "Dons" before time rubbed off half their
 and the final score reading Oulton 2 Farnley
 works 1-0. The number of spectators pre-
 at the match on Saturday was small, and
 was told to ask the question if there was
 other reason than the unfavorable weather
 count for such a thin attendance.

ROTHWELL, WESLEY GUILD.

Under the presidency of Rev. J. Harries,
 the ladies were read last Friday evening by two
 young ladies, there being a very fair audience.
 The Ethel Wright took as her subject "The
 Working days of God," giving an attractive
 well written account of the creation, and
 illustrating thoughts and facts both in matter
 and manner. Miss Ellen Cooper's essay was
 recently the result of a competition held in
 connection with the Wesleyan Guild of
 "Elijah" as her own language and from
 her own standpoint, and the effort did credit
 to her head and heart. Both young ladies

merited the words of praise and thanks
ed, and all present were highly gratified

CLAIM AGAINST THE ROTHWELL
DISTRICT COUNCIL.

Friday last, at the Leeds County Court.

his Honour Judge Greenhow—John
vers, coal dealer, Pawcett Street, Leeds,
sought an action to recover £5 5s., damages
from the Rothwell Urban District Council on
account of the negligence of their servants.
Mr. Arthur Willey appeared for the plaintiff,
Mr. O. P. Palmer, barrister, for the defence.

the case for the plaintiff, was that on
ber 11th he was leading coal from the
and Colliery with a horse and two-
wheeled spring cart, and while going down
dell Road a steam roller belonging to
Rothwell Council ran into his cart and
killed it.
Judge Greenhow : It must have been a more
y steam roller than Lord Salisbury's at
on that occasion. (Laughter.)
In defence was that the plaintiff was wrong-
go on the other side of the road, which
not been raised, but that he persisted in
to get through on the left side, with the
that he ran into the steam roller, which
stationary at the time.
Honour found a verdict for the plaintiff

The Editors of the chief paper in Bothwell address the following to you and a friend, being in the neighbourhood of Bothwell on a recent Sunday evening, thought we would visit the church there. We took our seats, as in other churches, were prepared to enjoy service, when to our surprise, we were asked to change our seats by some later arrivals, for their convenience. To this we naturally objected, especially as my friend asked, *was the pews free and unpaid for at the*

But the seats were unoccupied, and I was pointing out that most of the adjacent seats were empty. Being again requested, I refused, and as a protest, I left the building. I have never heard of such incidents taking place in this church, but could hardly credit

HINTS FOR THE HOME.

A SIMPLE WATER TEST.
All the water pipes in a house should be tested at least once a year. A simple test is to turn on the water supply at the main and let it run for a few minutes. If the water is running freely, the pipes are all right. If it is not, there is a leak somewhere. The water should be turned off at the main and the leak should be found and repaired.

CLEAN AND CULINARY FEATHERS.
Feathers are a very important part of a house. They should be kept clean and free from dirt. A good way to clean them is to wash them in warm water and then dry them in the sun. They should also be kept free from insects. A good way to do this is to put them in a bag with some dried herbs and hang them in a well-ventilated place.

DO NOT COOK.
Cooking is a very important part of a house. It should be done in a clean and well-ventilated place. A good way to do this is to use a range with a good chimney. The food should be cooked thoroughly and the kitchen should be kept clean.

INTELLIGENCE IN THE KITCHEN.
The kitchen is a very important part of a house. It should be kept clean and free from dirt. A good way to do this is to wash the floors and walls regularly. The food should be stored in a cool and dry place. The kitchen should be a place where the family can gather and enjoy their meals.

POINTS ON THE CARE OF THE HAIR.
The hair is a very important part of a person's appearance. It should be kept clean and free from dirt. A good way to do this is to wash it regularly with a good shampoo. The hair should also be kept free from insects. A good way to do this is to use a hairbrush and comb.

DANGERS OF KISSING.
Kissing is a very common way of showing affection. However, it can be dangerous if it is done in a dirty or unhygienic place. A good way to avoid this is to kiss in a clean and well-ventilated place. The lips should be kept clean and free from dirt.

PLUMBING THE SINK.
The sink is a very important part of a kitchen. It should be kept clean and free from dirt. A good way to do this is to wash it regularly with a good detergent. The sink should also be kept free from insects. A good way to do this is to use a sink brush and brush.

FOR BATHING.
Bathing is a very important part of a person's hygiene. It should be done in a clean and well-ventilated place. A good way to do this is to use a bathtub with a good drain. The water should be warm and the soap should be good.

MOTHER'S RESPONSIBILITY.
A mother has a very important responsibility for her children. She should keep them clean and free from dirt. She should also keep them healthy and happy. A good way to do this is to love them and care for them.

NICE DISHES.
There are many nice dishes that can be made at home. A good way to find out how to make them is to look in a cook book. The ingredients should be good and the cooking should be done properly. The dishes should be served in a clean and well-ventilated place.

RAM TROT.
A ram trot is a very important part of a horse's training. It should be done in a clean and well-ventilated place. A good way to do this is to use a ram trotting machine. The horse should be kept healthy and happy.

COUNCILLOR TURNBULL AND THE STOURTON SCHOOLS.

To the Editors of the Rothwell Times.
Dear Sir,
The object in writing to me regarding the remarks at the Stourton meeting was simply to give the full report, as against his extracts, and as the contrary view is held by the public, I have placed the remarks before the public. As to being this kind of a letter, I am not aware that there has been anything to indicate that condition, and I have been long before the public, to become to now. All the figures Mr. Turnbull gives are found in the official publications of the 1st and 2nd differences all away from the fact that Stourton has a full school and can always draw on Leeds children in Rothwell there are two schools, a limited population. I think Mr. Turnbull and I may now very well shake hands and prepare for the election, which I trust he will.

Respectfully yours,
A. MARSHALL.

[We have received a letter signed A. Balfour, and dealing with Mr. Turnbull, the Stourton schools, and the fact that the address of the writer is not given in this publication is held over.—Eds.]

ROTHWELL WESLEY GUILD.
An interesting paper by Mr. Marshall was given last Friday on "Old Yorkshire; its Folk-lore, superstitions, and curious epistles." The paper was productive of further facts and fancies being mentioned by members, and a cordial vote of thanks was recorded on the subject. The paper was illustrated by the Rev. J. D. Harris, who presided. To-night, Mr. J. D. Harris is the speaker.

PICTORIAL SERVICES.
Special services were rendered at the Temperance Hall, Rothwell, on Sunday last. The Rev. J. D. Harris, who presided, gave a most interesting and instructive sermon. The choir gave the service of song. The service was well attended and the collection was large.

ROBIN HOOD P.S.A.
The Rev. C. H. Goodman, who was recently released from captivity by the natives of West Africa, paid a visit to Robin Hood on Sunday last, speaking in the afternoon of his experiences in West Africa, where the mission station was destroyed, his followers murdered, and he taken into captivity. There was a large attendance to hear his heroic narrative, which he conducted.

FOOTBALL.

ROTHWELL WHITE ROSE V. OULTON.

The replayed league match between these local rivals took place at Rothwell, on Saturday afternoon, and was a very interesting contest. The football followers could scarcely realize that it was Saturday, owing to the extreme change in atmospheric conditions. The ground however was a little grey, otherwise the contest could not have been brought off under much pleasanter circumstances. The Ows were somewhat handicapped by the absence of Mortland, Ward and Holmes, the last being injured by a fall. The Whites were led by the captain, Mr. J. D. Harris, who was very good. The Whites won the match by a score of 2 goals to 1.

Respectfully yours,
A. MARSHALL.

WORDS OF WISDOM

Friendship that flatters often goes to a husband.

Suspicion disposes kinds to tyrannise and husbands to jealousy.

Of all expenses waste of time is the most extravagant.

Spent not all you have, believe not all you hear, and tell not all you know.

Hope is like the sun which, as we journey towards it, casts the shadow of our burden behind us.

Shorter is the basis of all true friendship.

Without security it is like a ship without ballast.

The most delicate and the most amiable of all pleasures consists in promoting the pleasure of others.

Men and women who are actively engaged in life, the interests of others, are the only people that life is without interest.

Do not do to live without some clear intention towards which your living shall be bent. Mean to be something with all your might.

If you are false to your duty it breaks a thread in the loom, and you are the defect when the weavings of life are unraveled.

Truthfulness is a cornerstone in character, and if it is not firmly laid in youth, there will be a great gap in the foundation ever after.

Write your name with kindness, love, and mercy on the hearts of the people you are in contact with year by year, and you will never be forgotten.

One thing I solemnly desire to ask all children (right obedience and respect to all persons) into life the power of uncalculated assistance.

It is the sign that your reputation is small and shaming if you are unable to make praise your own; and it is the sign that your reputation is large and shaming if you are unable to make praise your own.

Progress comes out of honest and energetic action. When it appears, it is the result of the action, and it is the result of the action, and it is the result of the action.

When you meet with neglect let it rouse you to exertion instead of mortifying your pride. Let it show how much more is possible than you are doing, and let it show how much more is possible than you are doing.

There is no substitute for hard work in winning success. There is no substitute for hard work in winning success. There is no substitute for hard work in winning success.

It is the character of the man that makes it true to know him. If he will not suppress his competition, he will not suppress his competition. If he will not suppress his competition, he will not suppress his competition.

For want of self-reliance many men are engaged in their lives in fighting with difficulties of their own making, and others are engaged in their lives in fighting with difficulties of their own making.

Conquer souls may be excellent. Some persons are so proud of their goodness, or of their attainments, or of their position, or of their character, or of their family, that they become offensive to many who would otherwise be their friends.

The home is the nation and the church of the world. All that is good and noble and heavenly government of the world is the result of the home.

A mark of a wise man is an efficient man who is the greatest thing himself to do in the world.

How the courage to face difficulties, not let it kick you under the foot, but let it kick you under the foot.

How the courage to face difficulties, not let it kick you under the foot, but let it kick you under the foot.

How the courage to face difficulties, not let it kick you under the foot, but let it kick you under the foot.

How the courage to face difficulties, not let it kick you under the foot, but let it kick you under the foot.

How the courage to face difficulties, not let it kick you under the foot, but let it kick you under the foot.

How the courage to face difficulties, not let it kick you under the foot, but let it kick you under the foot.

How the courage to face difficulties, not let it kick you under the foot, but let it kick you under the foot.

Sunset Colours.

Many people if they were asked to state the colour of the sun would say that it was orange, and they could as confidently assert that the colour of the

investigations, however, point to the conclusion that the real colour of the sun is blue, while that of the atmosphere surrounding the earth is orange. Apparently the earth's atmosphere appears so translucent and translucent that it is hard to realise the fact that it has as much effect on the light and heat coming from the sun as if it were a roof of thick glass. It will readily be understood that any light passing through this screen will experience some remarkable modifications. When the rays of light that left the sun the blue rays were the strongest; but very soon after they entered the earth's atmosphere their progress was impeded, and of all

which at first were inconspicuous, had the ability of penetrating the earth's atmosphere, and were the most in evidence at the end of their long journey. The first step accordingly to be taken when investigating a sunset is to realise that the white light from the sun, which is commonly supposed to be composed of the seven primary colours, is in reality a rainbow of thoughtless rays of original radiation. The further important point to bear in mind that all radiations of light are of different wave lengths. This fact, indexed in the very foundation, so to speak, of all sunsets, and it is the prime agency by which their flaming gorgeous tints and colours are produced. It is due to this fact, for instance, that in the neighbourhood of

The spectrum are of a much longer wave length than any of their fellow-rays, and so are the best adapted for penetrating the dense bank of haze which so commonly floats over all large towns and cities. In such localities, as the sun sinks to rest, the green rays are first absorbed by this bank of haze, and then the yellow, and lastly the orange and the red, the latter more often than not being

Dr. WAINMAN'S PENTON.

At a meeting of the Stating Committee, a

further letter was read from Dr. Wainman, the

workhouse medical officer, again contending

that it was his duty to dispense medicines.

Instructions had been given for prescriptions

to be made up by a chemist. The Committee

also considered a letter, which was received

from the Local Government Board, enclosed in

which was a copy of letter received from Dr. Wainman.

London authority asked for the Board's com-

mission thereupon.

It was agreed that the Clerk see Dr. Wain-

man, and having a reasonable amount could be

agreed upon, the Guardians allow a small

gratuity, on condition of his resigning the

appointment.

The Clerk accordingly sent Dr. Wainman

and told him of the position the Guardians

had taken upon intended adhering to. He

had a conversation with him but the Doctor

adhered to his determination not to dis-

miss. Apart from the legal justification, Dr.

Wainman thought there was a moral obli-

gation on the part of the Guardians to give him

some gratuity. He said he was not a

man of great fortune, and he was not

entitled to be paid a gratuity. He did not

think Dr. Wainman had gone about this thing

in the right way. If he had come to the

Board in a better spirit, different results might

have been reached.

The minutes were confirmed, and the Board

having agreed to the gratuity of £20 per

annum, Dr. Wainman gave notice to propose

a resolution to that effect in due course.

At a meeting of the Vaccination Committee

it was decided to recommend the Board to

write to the Local Government Board, en-

quiring in view of the increasing number of

cases of vaccination the necessity of an early

reduction in the minimum fees for vaccination.

On the minutes being proposed for confirma-

tion, Dr. Wainman expressed strong opposi-

tion to such a course, the fees now being re-

duced by one-half. He said that the Govern-

ment had no right to interfere with the fees

in his opinion still too small.

The resolution was put and was carried by

the majority of the Committee.

WESLEYAN BAZAAR AT STOUGHTON.

Stoughton Wesleyans are a go-ahead people,

slowly wedded to the cause and ready time

and again to put hands into their pockets to carry

forward their many enterprising schemes.

It is not many years comparatively speaking

since their present chapel, which is an ornament

to the village, was opened, at a cost of

close upon £2,000, independent of the cost of

land. This amount has been raised by the

exception of about £50, lent by the Manchester

Chapel Committee free of interest, and this small

loan is being gradually liquidated by

annual payments of £10. The debt owing to the

church to be so far discharge their financial

liabilities has had effect—a natural one—upon

the ordinary income for maintenance &c., and

an effort has this week been made to place the

trust and Sunday School funds in a sounder

condition. The suggested chapel organ

too are looked upon by many as a reproach

upon progressive church, and is decidedly

out of keeping with the other modern furni-

ture belonging to the trust. References to the

'jibbing' propensities of this requisite ad-

justion at the opening ceremony, called up

friendly memory of innumerable kind words

and encouragement, and the hope that the

guilty, and if the workers do not desire to

secure desirable notoriety for the musical

service of their place of worship, the matter

this erratic instrument is removed and the

better. A proportion of the proceeds of the

three-day bazaar, opened at 10.30 a.m. on

Wednesday afternoon last, is to be devoted

to this worthy object.

The ladies have been busy for months pre-

paring for this big effort, and on the day of

the opening the school-room presented a very

attractive appearance, being very tastefully

decorated and made beautiful by the very

neatly arranged and well laden stalls. The

Rev. J. W. Harrison conducted the opening

ceremony.

Mr. J. Priestley, the lay agent, offered pray-

er and read an appropriate portion of scripture.

The bazaar secretary, Mr. J. W. Harrison, then

explained the objects of the gathering. His

speech in admiration of the efforts of the work-

ers in the chapel and the help they had been

giving to the cause of the poor, and the

time that was left was the little ladies

referred to above. Whilst striving to

do themselves of their 'best' the ladies had

cropped up a number of little daubs which

were their intention now to face and overcome.

By the ladies' efforts, the bazaar was

they did the work, and were determined to

be rid of it. £50 was required to put the trustees

on a satisfactory footing, and £50 for the

Sunday School. They had also been

of a new organ in view, the present one being

an eye sore to every one who attended the

chapel. The ladies had also been

was a new instrument, and he trusted that

nucleus would be greatly increased by the

the ladies' efforts. He then

greatly appreciated and supported by the

people throughout the circuit, to whom they

were already greatly indebted. He then

HIS WAY OF FIGHTING

There were a dozen of us in the overland car
betel at night when the talk turned to the
Civil War, and the man who had given himself the
title of "Colonel" on the register casually remarked
that he had been in the thick of it as a Gray-Backed
a horror of blood! At Fair Oaks, after fighting for
three or four hours and soaking the ground

"An' I knowed he was sent to his own home, 'cause he had a right to it. But I knowed that if his feelings wasn't hurt, he'd be hurt." "You mean he'd be hurt if he didn't get his hands?" asked a farmer, with a snicker. "Well, yes, but I mean he'd be hurt if he didn't get his hands," replied the other, with a grin. "I mean he'd be hurt if he didn't get his hands," replied the other, with a grin. "I mean he'd be hurt if he didn't get his hands," replied the other, with a grin.

To MOTHERS. Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children's teething, with perfect success. It will relieve the poor suffering infant. It is pleasant to taste, is productive of natural action, and is the best remedy for the child from pain, and the little rheumatic aches—"as bright as a button." Of all Chemists, Dr. H. H. THE PALACE ON ROTHWELL
HAIKH
(CONTINUED)

The inmates of the Workhouse on Rothwell Haikh, on Tuesday night last, had a treat provided for them in the shape of an entertainment given by the Royal Italian Pierrots.

The numbers numbered between one and two hundred inmates, and evinced the most interest in the proceedings. The male portion of the audience appeared to range from 45 to 60 years of age, decorated in ordinary suits; such men as were seen any loitering about the markets or such public places as the working men frequent.

The women, as a rule, struck one as having had unhappy experiences in life, and to them the world had possibly been a vale of tears. But here, in this palace on the Haikh, their lot, let us hope, is much happier, at least to those who have capacity for happiness and ease, comfortably dressed, with white caps on their heads, and shawls across their shoulders, no doubt they were seen at their best. Noticeable in the room were several chairs on which, also what appeared to be invalid crutches, occupied by the very aged and infirm. The dining room appeared to occupy nearly twice the floor space of the large hall of the Rothwell Mechanics' Institute, was brightly illuminated by eight electric lamps, and lighted each, the effect being that of glorious sunlight.

The attendants on the invalids and inmates were brisk and cheerful, and evinced the greatest interest in the proceedings.

On the platform behind the artists, was arranged a pretty effect of greenery which set off most effectively, the white costumes ornamented by black pompadour, the performers appeared. It was easy to imagine they were once again at Scarborough or Bridlington, on the yellow sands, where they were, with other children, old and young, basking in sunshine, earnestly listening to the funny man known as Harriet, who was singing, and all attention to the play of the man who can take in and appreciate the gay humour of the songs that are sung and the breezy breezes of the ocean.

The performance, on Tuesday, at the palace on the Haikh, was introduced by Mr. H. Clark, who led off with the "Coon and the Major" in fine style. Miss E. Stokes followed on with "Lon Lon"—"Almighty nervous, but sweetly rendered; this young lady, who came from London in her next effort, "Johnny come from London," which gained considerable applause.
